WATSON IN THE CHAIR.

The Georgia Populists Assemble for Their State Council.

By Associated Press to the Tribune.

ATLANTA, Ga., Aug. 6.—The largest and most enthusiastic State Convention the Populists of Georgia ever held assembled today.

The presence of Thomas Watson, the party's nominee for Vice President, added interest to the occasion.

A preliminary caucus was held and practically settled the action of the convention on the Gubernatorial question.

Judge James H. Kines and W. L. Peek, candidates of the "Middle-of-the-Roaders," flatly declined to allow the use of their names, leaving the field to Rev. J. B. Gambrell, the Prohibition candidate.

Thomas E. Watson called the convention to order at 11:45.

Watson made no speech, but the dropping of his gavel was the signal for a wild outburst of enthusiasm.

Watson was requested to continue in the Chair until the permanent organization was completed.

THE KICK IN KANSAS.

A Settlement Though Is Said to Have Been Reached.

By Associated Press to The Tribune.

ABILENE, Kan., Aug. 6.—The nomination of Senator Leedy for Governor at 2 o'clock this morning left the delegates of the Populist Convention in a mood for quick work today.

Senator Peffer opened the session with an address advocating fusion of the silver forces on a basis of the votes cast for all offices.

The convention quickly adopted the Resolution Committee's report. The resolutions endorse the St. Louis platform and Bryan and Watson.

A telegram was ordered sent to the Populist Conventions of Texas, Georgia, Nebraska and Alabama, informing them of the endorsement of Bryan and Watson.

Judge Frank Dosier was nominated Chief Justice.

UNWELCOME NEWS.

HUTCHINSON, Kan., Aug. 6.—Judge Atwood, ex-Senator Martin and W. P. Dillard, members of the Democratic Conference Committee sent to Abilene to confer with the Populists on fusion, returned to Hutchinson today on the first train and were immediately surrounded by anxious Democrats.

When the conferees announced that no agreement was reached the disappointment was keen.

The sentiment in favor of rigid resistance to the encroachment of the Populists upon the Democratic Bryan and Sewall electoral ticket almost immediately took another boom.

Everywhere delegates expressed themselves as emphatically opposed to carrying on negotiations except on the original propositions of the Democrats to endorse the Populist State ticket.

Ex-Senator Martin made a short report of the Joint Conference Committee's session yesterday to the convention and said he and his associates returned to report progress and hold out encouragement to the waiting delegates. He suggested the convention adjourn to 2 o'clock today to await results. The motion carried.

SAID TO HAVE WON.

KANSAS CITY, Aug. 6.—A special to the Star from Hutchinson, Kan., says: "Just after the adjournment of the convention this morning a telegram was received by E. E. Murphy from J. G. Johnson, stating the Populist Conference Committee agreed to report in favor of the endorsement of the Democratic electors and this report will be made to the Populist Convention later in the day."

The amendment to the platform demanding an appropriation for the improvement of Texas harbors and waterways was adopted.

An amendment limiting the salaries of county officers to $2,000 was adopted by a large majority.

By Associated Press to The Tribune.

NEW YORK, August 6.—Senator David B. Hill gave a complimentary dinner to Senator Jones of Arkansas at the Normandie-by-the-Sea last night. Among the guests present were: Lawrence Gardiner of Washington, Secretary of the National Committee, James W. Hinckley, Chairman of the New York Democratic State Committee, and Assemblyman J. B. Stanchfield.

At the conclusion of the dinner a conference was held by those present. It is understood that the principal question under discussion was relative to what stand the New York State Committee would take in the National campaign. If any decision was arrived at, it was not made public last night, for none of the gentlemen present would be interviewed on the subject.

The Democratic Committee Is Lining Up for Work.

By Associated Press to The Tribune.

ST. LOUIS, August 6.—A meeting called by the Gold Standard Democratic Executive Committee, for the purpose of forming a Gold Standard Club in St. Louis, was held last night at Chatsworth Hall.

ATTACKS MADE ON STOCKS.

Debtors Being Pressed to the Wall in the East.

By Associated Press to The Tribune.

CHICAGO, Aug. 6.—It is reported on excellent authority that trading in account on the Chicago Stock Exchange will be suspended thirty days after the Exchange shall have been opened.

It is also probable that deals in future options will be limited to a week or ten days.

All this has been caused by Moore Bros.' collapse.

No one knows when the Stock Exchange will resume active business.

The room traders and many others have begun to make loud complaints against what they call the "arbitrary action" of the Governing Board in closing the Exchange.

It is said that Moore Bros. and a special committee of the Stock Exchange will finish their labors before tomorrow night, and make a statement of the financial standing of the firm.

A PHILADELPHIA FAILURE.

PHILADELPHIA, Aug. 6.—H. Boyd, Milton Parley and George C. Boyd, carpet dealers, have made an assignment for the benefit of their creditors. The deed, dated August 6th, was filed today. Counsel for the firms said: "The liabilities are about $250,000 and the firms have on their books upward of $350,000, but owing to the business depression and a number of failures some will doubtless prove uncollectible. In addition to this they have a considerable amount of stock."

BANKS CLOSED.

NEVADA, Mo., Aug. 6.—Sheriff Scrogham closed the Conkling Bros.' Banking House in this city, also the bank of Bronaugh and the bank of Richards, all the property of Conkling Bros., this morning, under order of the Vernon County Court, the action being based on a report by State Bank Examiner Jones, who says that business was being conducted in an unsafe manner.

W. H. Conkling says the closed banks will pay every dollar of their indebtedness.

J. L. George and C. M. Shartele were appointed receivers.

ONE IN NEW ORLEANS.

NEW ORLEANS, August 6.—The American National Bank failed to open today.

The Directors decided to go into liquidation.

BROKERS FAIL.

NEW YORK, August 6.—Steven R. Post and Michaelbacher announced on the Cotton Exchange today their inability to continue.

STOCKS TUMBLE.

NEW YORK, August 6.—A drop in London prices for Americans extending to a point in St. Paul and ⅞ per cent in Louisville and Nashville, gave the traders an initiative and a demonstration against prices was made at the outset. Arbitrage houses were also sellers.

Northwest declined 1⅝. Sugar lost 7-8, despite a strong market for foreign raw sugar and local advance of the refined product.

The pressure against the list continued unabated at 11 o'clock. Current prices were in some instances the lowest for a long time. Speculative mortgages reflected continued liquidation by local and foreign holders.

Market steadier for a brief interval during the second hour. The bears, however, returned to the attack with renewed vigor.

Burlington bore the brunt of the selling, the price falling to 59¼.

After midday prominent bears put out extensive lines of various properties and succeeded in uncovering numerous stoporders. Burlington declined to 58; sugar, 100 3-4; Manhattan, 84 3-4 and other leading stocks 1 and 2 per cent. A jump in call money to 3½ per cent bid and reports of further commercial suspensions were contributary influences to a break.

The bond market displayed pronounced a heaviness with concessions extending three per cent in some receivership properties.

PORTER ARMED AGAIN.

His Revolver Turned Over to Him by the Sheriff.

Deputy Sheriff Charles White has surrendered to Louis Porter the revolver which was taken from him at the time he was confined in the County Jail for threatening to kill members of the congregation of the First Unitarian Church at services one Sunday in April of this year. Soon after his arrest Porter was sent to the asylum for insanity. He was discharged thence a short time since whereupon he demanded the weapon with which he had terrified Dr. Wendte's people. Mr. White had no authority to retain the weapon and accordingly surrendered it.

LIVELY TIMES IN POLITICS.

Criticism as to the Manner of Organizing the Campaign.

By Associated Press to The Tribune.

SAN FRANCISCO, Aug. 6.—John Sopher, a worthless character, this morning tried to kill his wife and then killed himself. Sopher came from Humboldt County. Five months ago the woman left her husband and went to Dixon. Sopher followed her there and attempted to shoot her. She returned to San Francisco to avoid him and he followed her here.

This morning he called at a lodging house where she was stopping and after a short conversation he put a pistol to her mouth and fired. The woman is not dangerously wounded.

Sopher then shot himself through the head, dying instantly.

KIDNAPPED OR ON A SPREE.

SAN FRANCISCO, Aug. 6.—James Campbell, the Hawaiian millionaire, who returned to his hotel last night, with a strange story of having been kidnapped and robbed, was too ill to see reporters this morning. The police are working on the case and are very mysterious. They say they will soon have a sensation.

Campbell appeared at the hotel in a dazed condition and it is stated by some that he had been on a spree and had told the story of the robbery to account for himself.

COONEY FINED FIFTY DOLLARS.

SAN FRANCISCO, Aug. 6.—Judge Slack today fined Notary Public Cooney $50 for contempt of court in failing to appear when ordered to sign a deposition in the Fair will case.

Cooney is the notary before whom the deeds to over $1,000,000 worth property claimed by Mrs. Nettie Craven as her share of the Fair estate were acknowledged. He made a deposition to the effect that Senator Fair himself had brought the deeds to him for acknowledgment. When it came time for him to sign the deposition disappeared and it still remains unsigned.

Cooney was given until tomorrow to pay his fine before going to jail.

SPRECKELS CRITICISED.

SAN FRANCISCO, August 6.—The Bulletin says the leaders of the Spear-McKinley faction of the Republican party of this city met last night and decided to prefer charges with the National Committee against John D. Spreckels the National Committeeman from this State.

Spreckels will be charged with insubordination in having organized the party contrary to the wishes of the National Committee.

The National Committee instructed the organization to be effected by Congressional Committees, but Spreckels has done the work by the County Committee. Spear-McKinley men say that the same Convention which was discredited at the National Convention has nominated a Congressional ticket in opposition to the Convention which was recognized at St. Louis by the National Convention.

The removal of Spreckels as National Committeeman will be asked.

BANKS PAY IN GOLD.

Straightforward Announcement of Oakland's Leading Capitalists.

Mr. Requa of the Oakland Bank of Savings was called upon today by a representative of this paper, and, in answer to the inquiry, in what coin his bank would repay deposits in the event of the adoption of free coinage, replied: "All of our money is loaned on gold contracts. We shall demand gold in their payment, and we shall of course pay only gold to our depositors."

The reporter likewise called upon the Union Savings Bank, the Central and the Farmers' and Merchants' Banks, as well as the commercial banks and they fully endorse the statement of Mr. Requa that all payment to depositors will be in gold coin.

OAKLAND FOR HEALTH.

The Lowest Death Rate Among Very Many Large Cities.

Secretary Schafer of the Board of Health has prepared his annual report, which will be submitted to the Board at its next meeting. It shows that during the year ending June 30th there were 722 deaths, fifty-one of which were caused by violence and forty-one of old age. Deaths caused by zymotic diseases were comparatively few, only forty-seven having occurred. Tubercular diseases lead the list, 125 deaths having been caused by consumption. August was the healthiest month, only forty-six deaths occurring in it. March of this year leads with seventy-seven. There were but two deaths in the Fifth Ward from zymotic diseases and ten in the Sixth Ward, which leads the list.

In a list of thirty-eight cities in the United States, statistics show that Oakland's death rate is lower than that of thirty-four of them, her death rate being 12.03 in a thousand of population.

The Sanitary Department has made 1,109 sewer inspections and issued 283 permits for side sewers, 649 premises have been inspected and 594 reinspections were made. Nuisances abated by it number 389.

FIGHTING THE MARSH.

The Facts About the West Oakland Club Committee.

An error has crept into the published report of the proceedings of a recent meeting of the West Oakland Improvement Club with respect to the duties of a committee appointed at that meeting comprising William Walsh, George W. Drake and James Hennebeny.

It was stated that the committee was expected to do something with respect to the alleged choking of the Twelfth street sewer.

Such however is not the case. The committee in question is under instruction to confer with the Council on the very important matter of having the marsh in West Oakland bounded by Sixteenth and Twenty-second streets and Peralta and the embankment on the bay shore condemned by that body, as it has also been condemned by the Board of Health.

The condemnation by the Board of Health took place some time ago. It is desired after the Council condemns the territory in question to have the subject referred to the Board of Public Works for the purpose of abating the nuisance which exists there and which has been so long a menace to the health of the people residing in that vicinity.

The soldiers replied with rifle balls.

Then the men scattered.

In the melee, Private Perkins of Company "B" was shot, but it is not known how seriously. He was taken away in an ambulance.

THE BOY MURDERER.

Amos Decker Tells of What He Did After the Crime.

By Associated Press to The Tribune.

FINDLAY, O., Aug. 6.—Amos Decker, the boy murderer, in reality gave himself up of his own free will. He says he ran the first night to Bluffton, sixteen miles away where he lay in a cornfield until dark. Then he went to the town to get something to eat and was told by a friend that his victim, George Mills, was dead.

He immediately determined to return and give himself up. After getting a hasty lunch he left Bluffton and ran towards Findlay for eight miles. His volver to scare Mills not to shoot and ran barefooted.

When half way home he met two acquaintances in a buggy, who agreed to take him to the jail and avoid any possible mob. He claims he fired the revolver to scare Mills not to shoot him.

The Mayor has released Decker's father and three brothers who were held as accomplices. This action has so enraged the residents of West Park, where all the parties live, that they threaten to lynch the whole family, unless they are again placed under arrest.

The Congressional Race

Now that the Republicans have named their candidates for Congressional nomination, the action of the Populists and Democrats is being looked forward to The possibility of a fusion of the two parties with some silver aid, is anticipated

During the meeting of the Third District Convention of the People's party at Sacramento the selection of a Congressional nominee was postponed by a divided vote At that time Vann of Colusa and Bretz and Gibson of Alameda were named as aspirants The Bretz people tried to force the issue, but by their failure demonstrated the fact that their man has no show in the race

Now the names for consideration are Gibson, Green Majors and probably Burdette Cornell

The Democrats, assembling in District Convention, also postpone selections until after the National Conventions The talk at the time was for Seth Mann, favored by the Fitzgerald wing, Attorney Thomas Garrity, a favorite with both sides and Warren English, the Laymance candidate Since that time the names of two strong possible candidates have been put forward These are F J Moffitt and M Tarpey Henry McPike is also in the race in the Free Silver interests

The Middle-of-the-Road Populists have declared they will have an individual candidate in case their brethren decide to fuse with Democracy on the issue Already steps are being taken to bring about a satisfactory consolidation, but the hitch so far is that each party desires its man to receive united support

The situation is somewhat complicated and may result in each ticket having its own candidate.

The State Executive Committee of the People's party, after an exhaustive secret session in San Francisco yesterday, has declared firmly for Watson and will now take steps to inaugurate his campaign in California. The suggestion of a withdrawal in favor of Sewall was not considered.

J Bryan as President of these United States and the enactment by Congress of a law for the free and unlimited coinage of both gold and silver at the ratio of 16 to 1."

A SILVER STORY.

The Disastrous Effects of Its Circulation in Mexico.

Mexico has been a silver-standard country for four centuries, and it is now on a silver-specie basis. Ten banks issue notes—$28,427,000 in all. The specie (silver) reserve to pay them is $30,500 000 There are $15,000,000 in silver dollars in circulation, and the country has about $55,000,000 of money in use, counting in gold and subsidiary silver The population is 12,700,000—$4 50 per capita There are no Government notes Mexico's eleven mints have coined $3,321,000,000, but it has been exported as fast as it was coined, as bullion, to pay for imports at its commercial price as bullion A Mexican dollar in our silver coinage is worth $1 004 It contains 406-39 grains of fine silver, while ours has 371-25. The Mexican silver dollar is worth in gold in Mexico exactly 58 cents when silver is worth 65 cents per ounce as bullion, and 63 cents for a legal tender—6 cents being the cost of coinage. It fluctuates from day to day as bar silver fluctuates in London. It has no other fiat value in Mexico. If free coined the 5 cents would be deducted and the dollar would only be worth its silver bullion value

The cost of living in the City of Mexico is about one-fourth more than it is in San Francisco—in Mexican money. Hotel rates are $5 per day Cabs cost $1 50 per hour Street-car fares are 6¼ cents Rents are higher than in New York city, board is dearer, restaurant meals cost more.

Flour costs 5½ cents, sugar, 19 cents; beef 6½ cents, pork, 8½ cents, coffee, 24 cents, tea (cheapest), $1, cheese, 25 cents All staples imported cost gold prices in addition to duties.

The price of labor is very low in Mexico The street-car companies pay conductors, drivers, and collectors from 50 cents to $1 per day The highest wage paid blacksmiths is $2 50; bookbinders, $1, carpenters, $1 50, engine drivers, $1 50 harness makers, hatters, locksmiths silversmiths, plumbers and turners, $1, machinists, $1 75, brick layers, stone cutters, house painters, $1 25 Many work for half those rates

A craftsman in Mexico receives practically one half American wages, and has living in the same way as there coals much more

Laborers are paid from 37½ cents to 50 cents per day in this Mexican silver money They live at less expense than a farm horse in California.—San Francisco Bulletin.

Children Cry for Pitcher's Castoria.

SAYS "HE IS A LIAR."

Commissioner Wilson Uses Strong Language About the Mayor.

Politics Are Sizzling in a Lively Manner at the City Hall.

"He is a liar."

So said City Engineer Wilson with fire in his eye when the Mayor's name was mentioned to him this morning For not only is Davie wrathy, but Wilson's soul is full to overflowing.

This municipal war is all caused by Wilson's resolution directing the firemen and policemen not to use their position to assist any political aspirant.

"The sole object of my resolution was to assure the men that I had no political ax to grind," said Wilson. "There were several of the firemen who have called upon me asking what they should do in regard to certain political matters. Politicians have also interviewed me asking me to pull the department vote for them. Now my idea is to keep the fire and police departments from becoming political machines. That is why I introduced the resolution. The rules provide the same thing, but I wanted to recall them to the minds of the men.

"The Mayor is a liar. I never as long as I have been in office requested or instructed any fireman or policeman for whom I have voted to assist me and I have no workers in the department. Anyhow my resolution was not meant for the municipal election, but for the one coming this year. I expect to be a candidate for reelection I do not know what Petrsol's aspirations are, but I never, nor did he to my knowledge, appoint any one to the fire or police department pledged. Whether Davie ever demanded a trial for a policeman or fireman accused by their officers of violating the rules is best shown by the records of the commission where it appears repeatedly that he refused to sit and listen to the cases."

JUSTICE POTTER.

A Leading Jurist of Wyoming Is on a Visit Here.

Charles N. Potter of Cheyenne, Wyoming, a member of the Supreme Bench of that State, with his wife, is visiting Mr. and Mrs. Joseph Ireland, 661 Pacific avenue, Alameda, and paid a visit this morning to the office of County Clerk Jordan

Judge Potter has been on the Supreme Bench for the past two years, and is a gentleman of exceeding geniality and a jurist of ability.

He has been on the coast since the nominations for the Presidency were made, and is therefor, he says, not competent to detail what effect they will have upon the people of his State. When he left Wyoming, he said, there was quite a free silver sentiment there, though the feeling was not so radical as it was in Colorado, Montana or Idaho. Harrison for President, he said, carried the State by 300, and at the last Presidential campaign there had been no Cleveland electoral ticket, the Democrats and Populists uniting in favor of Weaver Two year ago there had been a Republican majority in the State, the majorities ranging from 2,400 to 5,000. He believed, he said, that McKinley will carry the State, although a candidate for Congress favorable to free silver will be nominated. He was under the impression that the Republican party in the State will support McKinley, although there were many people there who were not in favor of some of the principles in the St. Louis platform. A good many Democrats, too, he thought, would vote for McKinley.

As to the right of suffrage which women enjoy in Wyoming, Judge Potter says that there is very little difference in the percentage of men and women who vote. Fully nine-tenths of the women who are eligible to vote avail themselves of the privilege. They must have the same qualifications as male citizens, among them of course being that of education The judge looks upon female suffrage as a benefit to the State. Back there the people can see, he said, nothing disagreeable in the practice He had had twenty years experience with female suffrage and believed in it thoroughly Women, he said, were quite independent in their political views. They were less likely to be partisan in politics than men, though some of them were among the strongest partisans As to the division in political sentiment between husband and wife instances were comparatively few in which husband and wife belonged to different parties and voted different tickets, though he knew of instances where such was the case and he supposed there were many other instances of the same kind. The fact that wives voted as their husbands voted did not, he said argue that they were coerced, but that they harmonized with their husbands because of conviction and the idea of unity which married people are expected to maintain on many other matters

As to the traffic in female voting, he said that in certain localities there is in a slight degree traffic in woman's votes, but it is not so extensive as is that in male votes In fact, there was comparatively little of that kind of work done, because under the law it was difficult to traffic in votes Besides, Wyoming is a place of small communities and in them every citizen nearly is known to every other person.

A Red Hot Wave Sweeps Over Wisconsin and Northern Michigan.

By Associated Press to The Tribune.

MILWAUKEE, Aug. 6.—Dispatches from all cities in Wisconsin and Northern Michigan tell of extreme heat, followed at several points by severe wind and thunder storms.

The temperature ranged from 96 to 102 degrees.

At Racine A Perkson, aged 66, was prostrated and died Mrs J Ramsey was also prostrated and is in a critical condition.

Two persons were overcome in Milwaukee, but there were no deaths. In this city outdoor work was largely suspended and at Martinette the intense heat caused the closing of many factories.

The storm last night was severe in Northern Wisconsin and in Northern Michigan At Escanaba the Chicago and Northwestern viaduct, 400 feet long, was demolished. Damage to buildings and crops is reported at many other points.

JORDAN'S CLEVER WORK.

He Has Got the Register in First-Class Shape.

Little Trouble Anticipated in Getting the Special Copies.

There will be two editions of the Great Register prepared this year. One will be got out at the expense of the county and the other will be prepared specially for the forthcoming Republican primaries which will be held in this county on the 15th inst.

While there will be ample time to print the Great Register which is to be gotten out by the county only a few days are available in which to do the work on the special edition.

This work will be done under the supervision of County Clerk Jordan and this fact is an assurance that it will be done satisfactorily and in an expeditious manner. The cost of the special Register will be borne by the Republicans of the county.

Mr. Jordan's original idea was to have the names of all those who have registered copied with pen and ink and for this purpose he proposed to employ 121 copyists each of whom was to copy the names of all those registered in one voting precinct in the county He, however, has abandoned this idea, and, in accordance with an understanding which he has had with representatives of both wings of the Republican party, in the county, he will copy with typewriters the names of the parties registered.

The work will be done in a most careful and expeditious manner, which will be possible because of the excellent condition in which the registration feature of the County Clerk's office has been maintained up to the present time.

Mr. Jordan has carefully filed away in an individual file the registration blank of every man registered. This filing is done according to precincts so that it is possible to make a copy with comparative ease In these files not only the names of the voters appear but the names are also alphabetically arranged even with respect to the first three or four letters of the surname The advantage of this classification and arrangement will be the saving of time which would otherwise be wasted in searching for names less carefully arranged

To the names on these files now will be added the names of those who register between this date and the time for the closing of the lists which will be next Monday night at 12 o'clock. On Tuesday morning Mr. Jordan will get his force of copyists to work He expects to give employment to about a dozen typewriters and they will be as expert as can be employed. The names and descriptive matter will be dictated to them by the deputies employed in his office because it is believed that the work can be done quicker in that manner than it could be by having the typewriters do their own reading

It is not intended to copy the full description of each registered name because that would involve a great deal of unnecessary labor The information which the special register will give will be the name of the voter, place of birth, his age, occupation, height, complexion, color of the eyes and hair and local residence

It is believed that no more information than is contained in the foregoing will be required.

While this new register will cause a great deal of extra labor to devolve upon County Clerk Jordan, he is willing to undertake the task for the purpose of accomodating the public and at the same time of showing the care he has taken in the matter of preparing for the forthcoming Great Register of the county He is also pleased to do the work because it will give hundreds of people an opportunity of knowing that their names are on the Great Register and if they should discover that they have made mistakes in registering, they will be able to correct the errors before the regular Great Register is completed.

Clerk Jordan will rush the work through and when he turns the registers over by precinct to the parties entitled to them each of the registers will bear his certificate as to its correctness.

WATER FRONT APPEALS.

The Cases Being Considered Today in the Supreme Court.

It Will Take Three Days' Hard Work to Submit the Arguments.

(Special to the Tribune)

SAN FRANCISCO, Aug 6—At last the Oakland water front cases have been opened in the Supreme Court. This afternoon was set aside for the consideration of the first appeal, but other business occupied so much time that it was not until late that the case was called

Attorneys W. R. Davis, W Lair Hill, E. J Pringle and H A. Powell are on hand to represent Oakland's interests, while Harvey Brown and the Southern Pacific Law Department appear for the Water Front Company.

Three days have been given to hearing the appeals and it is anticipated all the time will be fully occupied

All told there are five cases to be heard, but the chief one is that of the City of Oakland vs. the Water Front Company, which is on appeal from the decision of Judge Ogden, when he gave the title in the main of the water front to the city.

In this case the Water Front Company asked for a change of venue and upon its denial appealed.

The State also has a case against the city and seventy defendants in which the Attorney General seeks to establish the State's title to the disputed territory. J. P. Dameron is involved in an action against the Water Front Company, and upon the other appeal hangs the title to the territory about Oakland's harbor.

THE POUNDMASTER SERENADED.

A Canine Song Which Was Sung Beneath His Bedroom Window.

The police think they have a good joke on Poundmaster Horton. For some time past a number of people on the water front have been complaining of a mongrel hound that makes night hideous with its howls. Horton has been asked several times to capture the canine nuisance, but has never been able to get his net on the four footed disturber of the peace. On Sunday night some of the water fronters thought they would have some fun at Horton's expense, and so they captured the hound. They then tied a rope about its neck, and led the howler to Horton's place when the Poundmaster and his family had retired. Slipping into Horton's yard, they tied the animal beneath his window and then made tracks for the water front again. Soon the hound took up its regular nightly wail, and Horton started in his sleep. He thought it was the dog of a near neighbor, and resolved to have his net over its head bright and early in the morning. As the night wore on the Poundmaster tossed uneasily in his bed while the hound talked to the moon and set all the dogs in the neighborhood to barking and baying. Night was hideous for the neighborhood, and Horton firmly vowed he would have that neighbor's dog in the pound before breakfast. Bright and early he arose and went out to secure his butterfly net that the Society for the Prevention of Cruelty to Animals has induced him to use. When he saw the Levee street hound tied beneath his window he said several things too strong for publication.—Stockton Mail.

TOPICS FOR TEACHERS.

Consolidation of Elementary Certificates for the Future.

A HARDER EXAMINATION.

Failure of Some Efforts in Behalf of Rural Districts.

APPROPRIATIONS ARE ARGUED.

The Superintendents Will Attend a Flag Raising.

The morning session of the County Superintendents was given to discussing and voting upon amendments relative to country school districts and discussing the report of the Committee of seven appointed to reorganize the methods of certificating the teachers. This last subject was given to the Committee last evening and it remained in session up to midnight. It had not finished its work then and held another session from 9 until 11.30 o'clock this morning.

Superintendent Black called the Convention to order at 10 o'clock, but as he was one of the special committee, Vice President Kate Ames was called to the Chair.

The proposed amendment to allow $400 dollars for school districts having less than ten children where they now get $20 for each child excited considerable discussion. The Superintendents from the country districts urged the adoption of the amendment while against it was argued that in many instances, unscrupulous marshals included campers or any other children who might be in the vicinity. A case was reported where the mother of four children brought her family into a district which made enough to get $400 a year and the mother, as a recompense for moving was made the school teacher.

Other Superintendents believed and expressed themselves that a district with less than ten children was well enough provided at the present time.

Ex-State Superintendent Fred Campbell who was the drafter of the law allowing districts of less than five children to lapse explained how it happened Under the old law a wise country female was making $75 a month teaching one child and that her own.

The amendment was lost on a vote of twelve to twelve

Superintendent Brown of Humboldt moved to drop all districts where the daily average attendance fell below seven children instead of five as at present. Five, he said in arguing his motion, did not represent a school but merely a good sized country family. To apportion $400 a year to one family was a farcical use of the school money. The motion was lost.

Superintendent Hackett moved to add a section providing that in districts of more than two teachers the trustees should designate one of them to act as principal. The motion was carried unanimously.

A motion to have the County Superintendents grade the schools in May instead of July was carried.

At this stage of the proceedings the committee of seven came into the room. Superintendent Black before having the report read, produced an invitation for the convention to attend a flag-raising at the Central Grammar School. By a vote the invitation was accepted and the report was then read,

Its principal features are that it will do away with the primary and grammar grade certificates and in the future have but one certificate to be known as an elementary certificate. The examination for this will be somewhat harder than the one now taken for the grammar grade certificate. It will include the studies of arithmetic, grammar political geography, physical geography, composition, United States history, orthography defining, word analysis, penmanship, reading, methods of teaching, school law, psychology, civil government, English and American literature, bookkeeping, vocal music, algebra, elementary physics, plane geometry, elementary botany and elementary zoology.

By a special provision certificates be they primary, grammar or life, now existing will not be effected by the change.

The committee recommended granting a probationary elementary certificate for four years to graduates of the State University and State Normal Schools upon the recommendation of the faculty If the holder proves successful as a teacher for this length of time Boards of Education may make the certificate life

This is considered the most weighty matter before the Convention, and discussions were lively for the few minutes which remained before the noon hour At that time the matter was laid upon the table to be taken up this afternoon.

This afternoon the convention opened with a discussion upon receiving the report of the Committee of Seven.

Superintendents Garlick and McClymonds were among those who warmly advocated receiving the report without amendment.

Superintendent Kirk suggested having the report printed and sent to the Superintendents and for the Superintendents to confer with their several Boards of Education before mailing their votes to State Superintendent Black.

The suggestion did not meet with approval and the motion to adopt the report in full was adopted unanimously.

This is the last day of the convention.

OFFICERS ARE CHOSEN

The Christian Alliance Is Winding Up Its Session.

A LEGISLATIVE COMMITTEE.

Thirty-Two Named to Take Charge of the Work.

REPORTS OF THE DELEGATES.

An Increased Membership Over Last Year's Showing.

The third day's session of the Christian Alliance State Convention was a productive one. It opened this morning with a prayer meeting between the hours of 6 and 7 o'clock. This was conducted by Rev. Mr. Krahl.

A recess was taken until 9:30 o'clock, when devotional exercises were led by Rev. Storall.

The business of the convention occupied an hour, from 10 o'clock and during that period reports from the various branches throughout the State occupied attention. From all sections came word of prosperity and increase. It was conclusively shown that the Alliance has made rapid progress during the year and that its members were nearly doubled.

The election of a governing body for the following term next occupied attention. A committee was appointed to suggest names for a Legislative Committee which will take charge of the State work. When the report was presented its adoption was unanimous. The Legislative Committee consists of Rev. T. J. Arnold, Rev. L. W. Craven, W. W. Storall W. Perkins, Rev. A. Coplin, Mrs. Carrie Judd-Montgomery, W. P. Morrison, A. E. Kellogg, Mrs. A. Skelley Mrs. J. A. Remington, Rev. H. C. Waddel, Rev. J. H. Allen, Mrs. W. H. Harter, Mrs. C. Wilcox, Mrs. Mason, Mrs. A. B Gore, Mrs. A R. Cogswell, Mrs. J. T. Bell, Mrs. T. H. B. Anderson, Mrs. J. H. Gilde, Mrs. Ed. Jones, Mrs. Dowdle, Mrs. Hollet, Mrs. Diez, Rev. T. H. Lawson, Mrs. J. T Stratton, Mrs. Wakefield, Mrs Stevenson, Mrs. Stevens, Mrs Woodward, M. Harmon and Charles Scott.

A Nominating Committee, which is empowered to make selections of the chief executors from among the members of the Legislative Committee, was also selected. The members are. Rev. H. C. Waddel, Mrs. A. Coplin, Rev. L. W. Krahl, Mrs. A. B. Gore, Mrs. A. R. Cogswell, Mrs. W. H. Harter, Rev. W. W. Storall and Mrs. Walter Perkins

This committee will meet at 5 o'clock tonight and name the officers.

From 11 to 12 o'clock the Convention listened to a sermon by Rev. Mr. Flint on "The Four-Fold Gospel" This was an able discourse and dealt pertinently with questions of much interest to the Alliance.

The noon hour having approached, the delegates were again the guests of the ladies of the local branch and enjoyed an excellent dinner in the lecture room.

At 2 o'clock the work of the Convention was resumed with a devotional service conducted by Mrs. Scully of San Francisco. Between 2:30 and 3:30 o'clock Rev. A. Kellogg delivered an address on "Spiritual Organization" and at half-past three Rev H. C Waddel was talking on the subject of the "Christian Alliance," explaining its objects and purposes.

A free conference will be held at the conclusion of Rev. Waddel's address, at which the various points of interest touching Alliance work will be discussed This is to be conducted by Mrs. W. M. Harter.

Devotional services under the supervision of Rev. Mr. Fraser will open the evening's exercises and at 8 o'clock Rev. Mr. Carpenter of Santa Clara will deliver a discourse on "The Second Coming of the Lord." At 9 o'clock the usual altar services will be held, in charge of Rev. T. J. Arnold.

During the morning exercises the question of establishing an official organ for the Alliance work on the Pacific Coast was brought up for discussion. While all agreed that a journal was a necessity and that it would be a material aid, it was feared that not enough funds were on hand to successfully carry out the venture. Some believed that a trial should be made and the matter was taken under advisement.

Tomorrow's session will conclude the Convention.

REGRET AND RESPECT.

Resolutions Adopted Regarding the Death of Winnie.

The following resolutions have been adopted by the Builders' Exchange regarding the death of William Winnie:

"Whereas, William Winnie, our esteemed President, who has been an energetic and industrious worker for the promotion and furtherance of the best interest of our Exchange, has been removed from our midst by that grim destroyer death, under circumstances deplored by all who knew him; and

"Whereas, William Winnie was a man admired for his honesty of purpose and integrity, always affable, congenial and charitable, whose fault, if any, was too much confidence in his fellow man, who trusted without word many ways under which his proud spirit bond, thereby experiencing a loss in it chafed; therefor be it

"Resolved, That in the loss of William Winnie, who has been our President for three consecutive terms, and who has always filled the chair with honor and credit to this Exchange as well as to himself, our organization is bereft of a useful and honored member and the community of a good citizen, and be it further

"Resolved, That we express our deepest sympathy for and condolence with his faithful wife and companion in life, who has stood so nobly by him; and be it further

"Resolved, That a copy of these resolutions be sent to the widow of the deceased, conveying to her our heartfelt sorrow in her hour of affliction; and be it further

"Resolved, That the charter of this Exchange be draped in mourning for the period of thirty days in honor of the memory of our departed friend and member.

UNION LABEL — TYPOGRAPHICAL — OAKLAND No. 36

THURSDAY..........AUGUST 6, 1896

It is reported that ex-President Harrison will be a candidate for the United States Senate. He would do good service there. John Quincy Adams did not think it beneath his dignity to serve several terms in the House. He died in Washington, with the harness on. Harrison in the Senate would be the most influential man in that body.

At the tenth annual convention of the American League of Building and Loan Societies in Philadelphia last week the Secretary reported that there were 6000 associations in the United States. Their assets are about $750,000,000 and the sum paid out annally reaches $75,000,000. What will the several million members of these, whose savings represent industry and self-denial, and which they have invested with the hops of securing a fair return from the investment or of building a home some day, think of the proposed change of standards with a resultant shift to the silver basis and a loss of 47 per cent of their holdings?

We have heard much about the "new woman." But here is an old fashioned woman with the push and energy to make things go. The Chicago Tribune relates this incident: "Professor D. A. Kent of the State Agricultural College at Ames, who drained Lake Cairo of the water and paid this county $4000 for a quit claim deed to land which he brought into view, was on the eve of abandoning his farming project this week. The wet season has washed out the seed and completely discouraged him, says a Webster City, Iowa, correspondent. His wife who is prominent in society, came to her husband's rescue. Early yesterday morning she commenced seeding an eighty-acre tract in millet and drove the team herself, finishing fifty acres before night. Today she is going on with the work and she declares if her husband has not the grit to save the 3,000 acres she will do it herself."

Grain Bags and Legislation.

The last Legislature undertook to legislate in the interest of farmers in one particular at least. It ordained that the jute grain bags made at San Quentin should not be sold to middle men, but should be sold in such quantities for actual use as farmers might need. The object was to prevent a corner or trust by which middle men controlling the bulk of the grain bags could run the prices up on the farmer.

For some reason the grain growers are very slow to take advantage of this arrangement. The prison authorities report 2,000,000 unsold grain bags representing a cash value of $84,000. There is a large grain crop this year, and most of these bags will be needed in the fields. Farmers do not like to comply with the new method of sale. Heretofore they have dealt with middle men, and while they have complained bitterly of the advance in prices, for some reason, they seem to like the old way of dealing with middle men the best.

It may be that in many instances some accommodation was extended to them in the way of credit. They could frequently buy the bags at country stores where the bulk of other trading was done, and pay when they had sold or borrowed money on their wheat in the ware house. And so it turns out that the grain men are slow to buy their bags at first hands with all the advantages that are offered.

Decline of a Once Flourishing Business.

A few years ago about the most prosperous cattle business in the country was that of the rearing and sale of Jersey cattle. Many of these brought fancy prices. A cow would frequently sell for a thousand dollars. Then came a decline. The prices went down. Jersey cattle were sold for whatever they would bring, and the famous breeders went out of the business.

Within a year or two, there has been another cause of discouragement. It was found that tuberculosis prevailed to agreater extent among Jersey than among other cattle. In Massachusetts whole herds were destroyed in compliance with the law providing for the extirpation of the disease. The Jersey will survive. But the speculating days in this respect are over. Tuberculosis will decimate herds, but there will be enough left for ordinary demands.

For an Attractive Rural City.

Berkeley is in a fair way to become the most attractive city on the Pacific Coast. It has the advantage of great natural beauty of site. The second great advantage is a climate that is good all the year round. The outlook from the more elevated ground embraces a scene of surpassing beauty. If one looks from the Asylum grounds or from the University grounds, he might well raise the question if he ever saw a foreground and background embracing so many attractive features?

There is still a very broad margin for future improvement in that little city. Twenty years ago or more there was in active existence in Berkeley a town improvement association, which undertook to make rural improvements; the scope being chiefly confined to the planting of ornamental trees along the side walks, and to the cultivation of a rural taste in the line of public improvements. The association procured the planting of many trees. But after a while that organization fell into a state of "innocuous desuetude." Vagrant cows used the trees as scratching posts, and in time much of the good work that had been accomplished was undone.

Berkeley now sustains a Floral Society which with a little expansion could convert that town into a rural paradise. Professor Hilgard in an address before that society, on "Shade and Ornamental Trees," suggested a new system of tree planting which would secure many beautiful avenues in that town. He would have only one kind planted on a single street, but would have separate varities enough for all the streets of the town. The foolish ordinance which prohibits the growth of trees more than twenty-five feet high ought to be repealed at once. Both in Berkeley and in Oakland there has been just cause of complaint that electrical companies have slashed the tops of ornamental trees in order to clear the way for wires. That is an abuse which ought not to be tolerated. Berkeley has entered upon its second stage of growth. It is about to add to the distinction, of a university town the distinction of the handsomest residence city in the State.

The President's Appeal.

It is morally certain that within a few days President Cleveland will make a public declaration of his views touching party obligations in the present crisis. Before the date of the Chicago Convention he was reported as saying substantially, that if a free silver coinage candidate were nominated, so great would be the interests at stake that he would prefer voting for the Republican nominee than to vote for a candidate such as was likely to receive the nomination of one wing of the Democratic Party. That at least was a fair construction of his meaning.

There is no reason to suppose that the President has changed his mind since he made that deliverance. It is in the air that he will advise the sound money Democrats who are soon to meet in a National Convention to support the Republican ticket. There is now a prospect that thirty States will be represented in that convention. It is certain that a sound money platform will be framed, and one broad enough to include all the cardinal principles of the party. This having been done the only healthy Democratic organization in the country will have a National existence. It will be the rallying basis of all sound money Democrats who are opposed to National repudiation.

A platform having been framed, the next question will be as to a nomination. The views of President Cleveland will have great weight in the Convention. The main purpose is to defeat the Chicago Populist-Democratic nominee. That can be more effectively done by voting for the Republican nominee. The Democratic revolt has gone so far that no union can ever be made with the Bryan wing. President Cleveland is now in a position to make the election of the Chicago ticket well nigh impossible. His expected declaration is now awaited with eager interest.

The Republican platform pledges the party to purchase the Danish West Indies as a coaling station for the Navy. W. E. Curtis contributes to the Chicago Record some interesting facts about these islands. The original proposition considered by Secretary Seward provided for the acquisition of the Danish possessions in America, consisting of the three islands, St. John, St. Thomas and Santa Cruz. The price agreed upon was $11,250,000, less than one-half of what Denmark asked originally. St. John and St. Thomas present advantages for fortification, but Santa Cruz, which is superior as an agricultural district, is without such advantages. Seward's final proposition was to buy only St. John and St. Thomas, for which he offered $7,500,000, and this was accepted. It was stipulated by Denmark that the consent of the inhabitants of the islands must be obtained. St. Thomas voted on it January 9, 1968, there being 1039 votes for annexation and 22 against. The following day the vote was taken in St. John, and it resulted in 205 votes in favor and none againt. Then the Danish Rigsdag ratifieg the treaty, but this fell through because of the unwillingness of the United States Senate to concur.

Contrary to the generally accepted theory there are still bands of buffalo running wild in this country. A San Antonio paper makes this statement: "Several weeks ago Dr. J. B. Taylor, the wealthy Texan stockman, sent three experiendced cowboys and frontiersmen in search of the herd of wild buffalo which was discovered in Brewster county two years ago, and has been seen several times since then. The hunters have just returned from their trip, which they state, was a success. They found the herd of Buffalo, numbering about eighty head, in a remote section of Presidio county. The animals were trailed by the hunters from the Carmen mountains in Mexico. Now that the exact location is again known, it is Dr. Taylor's intention to start with his expedition, which has been organized for several months, and round up the animals and place them all on his ranch in Tom Green county.

We confess to having a great interest in any new motor for the improvement of street railway transportation. For that reason we have followed closely all the accounts of compressed air as a motor. The World makes this declaration: "There is no longer any reason to doubt the success of the application of compressed air as a motive power for street traction. As a practical and mechanical achievement its possibilities have been amply demonstrated by experiment, and it only remains to be proved that it is economically satisfactory. It is to be hoped that this is the case. The question is one of greater interest to New York than to any other city, for the reason that this is the only city in which the change from horse power for street traction yet remains in great part to be made."

Silver in Mexico.

Mexico is frequently cited as an example of the prosperity of a country on a silver basis. It is well to look into facts. The World recently condensed some pertinent facts in a short silver catechism. They completely overturn the theory that Mexico is a prosperous country because of its silver basis:

Q. Mexico has been a silver-standard country for four centuries. What is its present monetary condition? A. It is on a silver specie basis. Ten banks issue notes—$28,427,000 in all. The specie (silver) reserve to pay them is $30,500,000. There is $15,000,000 in silver dollars in circulation, and the country has about $55,000,000 of money in use counting in gold and subsidiary silver. The population is 12,100,000—$4.5 per capita. There are no Government notes.

Q. What has become of the $3,221,000,000 coined by the eleven mints? A. It has been exported as fast as it was coined, as bullion, to pay for imports, at its commercial price as bullion.

Q. What is a Mexican dollar equal to in our silver coinage? A. $1.04. It contains 406.39 grains of fine silver; ours 371.25.

Q. What is it worth in Mexico in gold? A. Exactly 58 cents when silver is worth 68 cents for a legal tender—five cents being the cost of coinage. It uctuates from day to day as our silver in London.

Q. Then a Mexican silver dollar is worth no more in Mexico than it is anywhere else in the world—its market price as bullion? A. Yes, five cents—the cost of coinage. It has no other fiat value in Mexico.

Q. Then its practical "free and unlimited coinage" adds nothing to its value? A. Only the legal-tender fiat value in Mexico of five cents over the bullion value. If free coined this would disappear and it would only be worth in Mexico its weight in silver.

Q. What is the cost of living in the City of Mexico? A. About one-fourth more than in New York City—in Mexican money. Hotel rates are 15 per day. Cabs cost $1.50 per hour. Street-car fares are 6¼ cents. Rents are higher than in New York City; board is dearer; restaurant meals cost more.

Q. What is the cost of food? A. Flour, 5½ cents; sugar, 19 cents; beef, 6½ cents; pork, 8½ cents; coffee, 24 cents; tea (cheapest) $1; cheese, 25 cents. All staples imported cost gold prices in addition to duties.

Q. How much of this Mexican silver money can a man earn? A. The street car companies pay condutors, drivers, and collectors from 50 cents to $1 per day. The highest wage paid blacksmiths is $2.50; bookbinders, $1; carpenters, $1.50; engine-drivers, $1.50; harness makers, hatters, locksmiths, silversmiths, plumbers and turpers, $1; machinists, $1.75; bricklayers, stone cutters, house painters, $1.25. Many work for half these rates.

Q. Then the cost of living is much higher and wages of craftsmen much lower than with us? A. Decidedly. A craftsman in Mexico receives practically one-half American wages, and his living in the same way as there costs much more.

Q. How is it with laborers? A. They get from 37½ to 50 cents per day in this Mexican silver money.

Q. And how do they live? A. "At less expense than a farm horse in New England," and not so well, John Bigelow once remarked. "The laboring classes," says a Mexican newspaper, "regard themselves as a plant, which moves by extraneous aids only and has no power of volition and no desire to exercise it if he had."

The London Truth advocates a sound system of taxation with a pointed illustration. Every one ought to be allowed to accumulate during his lifetime what he pleases, but when he dies there ought to be a maximum that he may leave to relatives or friends, all in excess of this going to the State. Take, for instance, Mr. Astor. It is said that he possesses about fifty million pounds. Evidently he cannot spend the interest of this amount. In a given number of years, therefore, if this money from generation to generation remains in the hands of one single individual, it will become five hundred millions. Neither the individual nor the community will benefit by this. Therefore, I would meet it by handing into the public treasury most of Mr. Astor's fifty millions on his death. How would this harm him? He would have ceased to exist. If the State took 99 per cent of his money on his death, he would still have five hundred thousand pounds to dispose of, and on this sum his heirs or his heir might rub along comfortably." Mr. Astor now has the floor.

Robes Which Fleck the Landscape With Patches of Color.

Every girl must be an artist if she would be successful. I don't mean that she must paint, but that she must see with an artist's eye. When a picture is painted, would an artist put in a figure that did not harmonize with the background surrounding it? Yet how often do we don a gown, thinking nothing of the green trees under which we shall stand, or the blue room that will put a gloomy cast upon our countenances.

Perhaps this idea ran through the minds of the French women who first wore the gaudily colored robes which bathers are now winding around them for their run across the sands. These robes are rich in eastern coloring, and are wonderfully effective against the green of the sea and the shining sands.

Many of the robes are fashioned in mantles. One in particular of a vivid red material, striped with blue and golden brown, has quaint draperies over the arm, and a high ruche about the neck.

When worn with sandals and a knotted cap of crimson silk, one might easily imagine that Cleopatra were walking across the sands, in all the beauty of her country's gowning.

SPAIN IS SCARED.

The Cuban Insurgents Are Stirring Up Interior Riots.

GENERAL ALARM IS FELT.

Efforts to Prevent Further Reinforcements of Troops.

THE SITUATION IS SERIOUS.

Enormous Expenses Created by the Present Revolt.

By Associated Press to The Tribune.
(Copyright 1896 by Associated Press.)

MADRID, Aug. 6.—Trouble of a serious nature is being fomented in Spain, particularly in the province of Valencia, by agents of the Cuban insurgents.

The Minister of the Interior, Senor Cos-Gayon, yesterday, replying to a question in the Chamber of Deputies, admitted that riots occurred in Valencia, caused by friends of the Cuban insurgents, who hoped thereby to prevent the departure of reinforcements of troops for Cuba.

Hitherto the popular demonstrations have been attributed entirely to protests against the imposition of new taxes, made necessary by the financial strain the Government has been subjected to through carrying on a campaign against the insurgents in Cuba, but while the Government is only willing to admit the riots had been instigated by agents of the Cuban revolutionists, it is generally admitted the roots of the trouble are much deeper, and that it is being nourished by the natural feeling of alarm and dismay at the apparent utter inability of the Government to cope with the situation in Cuba.

A NEW POINT.

Deputy County Clerks Cannot Become Election Officials.

County Clerk Jordan is making inquiry into the matter as to whether or not the deputies whom he has appointed in various parts of the county to aid in the work of registering citizens are eligible to act as precinct officers at the forthcoming election.

As it now stands he considers those deputies county officers although they receive no remuneration. As officers, he feels they are not eligible to hold places on the boards in question. In this respect Mr. Jordan's opinion is shared by George W. Reed to whom he has spoken on the subject.

Mr. Jordan intends to confer with District Attorney Snook on the subject and if Mr. Snook's opinion agrees with his Mr. Jordan will then revoke the commission which he has given to those men to act as his deputies, because he does not want to prevent them from serving as election officers where their inclination suggests and their neighbors demand their services.

Of course all of the deputies in question do not desire to become precinct officers. Those who do not wish to serve in that capacity will continue to act as deputy clerks. Where deputies desire to officiate at the polls, Mr. Jordan will appoint others who have not that aspiration, to act in the matter of registration in their stead, or failing in that, he will announce that people living in those localities where deputies do not reside will be required to come to his office in this city to register.

The Police Shoot.

Policeman Cockenton won the monthly police shoot at Shell Mound Park yesterday with a score of 43 out of a possible 50. The other officers scored as follows: Swain, 43; Clark, 43; Andrews, 42; Williams, 42; Schoeder, 43; Klugsbury, 42, McCarty, 43; Arnest, 42; Sirl, 42; Moore, 42; Henderson, 40; Stahl, 39; Keefe, 39; Layton, 37; Powers, 36; Jacobus, 33; Captain Wilson, 38; Ely, 27; Nedderman, 27; Quigley, 32; McKeegan, 34; McCloy, 23; Green, 19; Woods, 8; Murry, 29; Murphy, 24.

A SOCIAL STAR SETS.

Death of Mrs. Hicks-Lord, One of New York's Leaders.

SHE ENTERTAINED LAVISHLY.

Fortune Showered Her With Gifts Throughout Her Career.

HER WEALTHY ALLIANCES.

She Cut a Big Figure Both Here and in Europe.

By Associated Press to The Tribune.

NEW YORK, Aug. 6.—Mrs. Annette Hicks-Lord, who was in her day one of the most notable figures of New York society, died last night aged 67 years.

Mrs. Hicks-Lord was descended on her mother's side from a titled English family and was related to General Robert Schenecke, once United States Minister to Great Britain.

Her father, Unicio Peter Wilkins, married Adeline Schenecke, whose family had a great deal of property on the Fishkill River.

The couple went to Guiana where Annette was born. Subsequently the Wilkins family returned to this State, making their home at Mattowan.

Annette at 25, was married to Thomas Hicks, a wealthy merchant of twice as many years as her own. Her marriage settlement included considerable property at Toledo, Ohio, which when Hicks failed a few years later, gave his wife income sufficient for the maintenance of both until the husband died.

The widow's fortune was increased by an inheritance from relatives in Holland, so she was able to entertain most lavishly; her receptions being among the most noteworthy of the period in New York.

Then Mrs. Hicks went to England and as a relative of the United States minister was presented to Queen Victoria. She set up an establishment in London which was as celebrated in its way as had been her city New York home.

After Mrs. Hicks returned to America, Thomas Lord, the octogenarian dry-goods merchant, with a fortune of $6,000,000, paid suit to her. In 1877 they were married.

The six children of Mr. Lord sought to have the marriage set aside on the ground of mental incapacity of Lord.

The couple, however so completely secluded themselves in the wife's home on Fourteenth street, that for months detectives were unable to reach him.

The fight was finally abandoned. A year later Lord died.

After the porper season of mourning the widow re-entered society, her entertainments taking on even greater magnificence than those of her earlier career.

Recently her health failed and she travelled extensively. She also devoted much of her thoughts and money to religion.

A few years ago her fortune was estimated at $3,000,000 not taking into account her magnificent collections of plate, cameos and rubies.

AS OTHERS SEE US.

Oakland's Police and Fire Commissioners have ordered the men in the two departments to keep their hands off of politics. That was a sensible move. Of course it is not intended to abridge any of their rights, but to keep them from turning politicians, to the neglect of their duties during the campaign.—Alameda Argus.

Oakland has begun a grand Exposition. Nearly every city in the State has had its floral festival and a great big struggle electing a queen. Vallejo is behind. Why can we not have a little civil war over the question as to who shall be Queen of the May? It might not be a great affair, but it would stir up interest and set a few more dollars flying. The livelier the money moves, the more chance of getting some of it, and the less reason for such fads as free coinage and free trade.—Vallejo Chronicle.

"It must be lonely for you at home, Jorkins, while your wife is at the seashore."

MAY RUN FOR A MONTH.

Proposition to Extend the Time for Closing the Exposition.

A BIG BENEFIT TODAY.

The Associated Charities Will Reap the Financial Benefits.

MORE ATTRACTIONS ARRANGED.

Alameda County Can Be Well Proud of Her Fair.

The Associated Charities held its wood yard benefit today at the Oakland Exposition, and the large crowds in attendance testified not only to the Exposition's success, but also to the popularity of the charity organization. Probably several hundreds of dollars will be turned over to the Charities from the gate receipts this afternoon and evening.

The committee in charge of the day's arrangements and programme, Mrs. Paul Lohse, D. Edward Collins and Dr. E. S. Chapman, prepared an entertainment both interesting and popular.

The feature of the afternoon was the singing of patriotic songs by over a hundred little children from the West Oakland Home. The programme in full was as follows:

March .....Exposition Band
Overture .....Exposition Band
"Star Spangled Banner".....
One hundred children from the West Oakland Home (with flags).
Selection .....Exposition Band
Statement of the object of the day.
Patrol .....Exposition Band
"Our Hero, Washington".....
One hundred children from the West Oakland Home.
Gavotte .....Exposition Band

The programme for the evening will be especially interesting, as the work of the Associated Charities will be discussed by able speakers. Rev. E. S. Chapman will speak on the benefits to be derived from the wood yard, and Mayor Davie will advocate the adoption of the Pingree system by the people of Oakland, which would utilize the unimproved grounds and give work to the unemployed. As Mr. Davie has been in communication with Mayor Pingree of Detroit, who established the system, he will probably be able to give some interesting facts in connection with the operation of the plan.

The Associated Charities has decided to adopt the Pingree system of work if the ground is granted them and the tools and seeds are supplied.

An attractive feature of the evening's programme will be the singing by the Temple Quartette and the mandolin playing of the Misses Sherwood. All of the musicians are extremely popular, and are generally greeted with large audiences.

TONIGHT'S PROGRAMME.

The programme has been arranged as follows:

March .....Exposition Band
Overture .....Exposition Band

Temple Quartette.
Benj. Clark, first tenor; E. E. Brangs, second tenor; Harry A. Melvin, first bass; George A. Carleton, second bass.

The Misses Theresa and Lily Sherwood.
"Monastery Bells" .....Exposition Band

.....Mayor John L. Davie
Patrol .....Exposition Band

Temple Quartette.
Guitar and mandolin duet, "Southern Melodies" (by request) .....
The Misses Theresa and Lily Sherwood.
Medley .....Exposition Band
Address, "The Associated Charities Wood Yard".....Rev. E. S. Chapman
(President of the Associated Charities.)
"The Two Roses" .....Vogel
Temple Quartette.
Selection .....Exposition Band

At the Associated Charities Booth the following ladies are receiving: Mrs. C. H. Redington, Mrs. S. C. Borland, Mrs. Helen Kelly, Mrs. E. S. Chapman and others.

At the Suffrage Booth the following Berkeley ladies are receiving: Mrs. Geo. Haight, Mrs. William Keith and Mrs. Carlyle.

The Political Equality Club will tender a reception to the Press Association Friday evening.

Miss Susan B. Anthony will receive with the ladies one day, probably Friday or Monday, although the day has not been definitely settled.

The Press Association is making elaborate preparations for its day next Friday afternoon, when papers will be read by Joaquin Miller, Miss Ina Coolbrith, C. E. Markham and others. The committee in charge consists of Mrs. Emma Marshall and Mrs. Florence Miller.

Other special features of the Exposition will be the singing of the Black Patti, Friday afternoon; the Colored People's Day, August 12th, and the special days for towns throughout the county—Berkeley, August 11th; Haywards, August 10th; Alameda, August 13th, and Contra Costa County Day, August 15th. The Native Sons will also celebrate the evening of August 15th.

BABIES' DAY.

Another special day which is attracting attention is "Babies' Day," Monday afternoon, when prizes will be awarded to little tots under two years of age who can pronounce most clearly the words "Alameda County Industrial Exposition." As three young bachelors were judges last year, it is probable that three young benedicts will be selected this year, and Mr. Wilson and Mr. Edson Adams will be invited to act and given the power to select the third judge.

A few striking changes have been made in some of the booths, noticeably the Tribune's attractive exhibit, which is now illuminated with twenty incandescent lights, making it one of the brightest spots in the exhibition.

Back of the Tribune booth the Alameda Argus has placed the finishing touches to an attractive booth in red and white, comfortably furnished as a sitting room and containing files of the Alameda paper.

A SURE SUCCESS.

The Directors of the Exposition are enthusiastic over the success of the exposition and although it has not been definitely decided upon it is generally understood to be their wish to continue the Exposition two weeks longer than originally intended. The crowds which have constantly increased during the past few days warrant the continuance and the Directors will hold a meeting soon and definitely decide whether to close the Exposition on scheduled time or continue it one or two weeks longer.

"While it may not be any greater success from a financial standpoint than last year's Exposition," said Mr. Keller, a member of the directory today, "it is certainly drawing crowds and as the people want to have it continued longer and the concessionaires want it, we probably will follow out their wishes. What pleases the people pleases us. The crowds are constantly increasing and many people are taking advantage of the season tickets to visit the exhibition every day. Personally I am in favor of its continuing for at least another week."

Superintendent Cragie Sharpe declares that the Exposition should continue for two weeks longer than at first decided upon and says that it would still pay.

"We are having favorable weather and the crowds are constantly increasing," he said. "Our expenses are larger this year but the attendance is also larger. We made it pay last year for a month and we certainly can be as successful this year."

As the majority of the directors feel the same about the Exposition, it is almost an assured fact that the Exposition will not close until two weeks after scheduled time.

BLAMING THE MACHINE.

The Mechanical Calculator Said to Have Made a Mistake.

Even adding machines will make mistakes. That is the conclusion to be arrived at with respect to the discovery made by Leo Park, late Deputy Tax Collector under Rosborough as to where the mistake was made in the showing of Expert Snow that a new shortage of $487 had been discovered in the accounts of Mr. Rosborough when he was in the office of Tax Collector.

Mr. Snow says it was not he who made the mistake but the machine. The machine is a strange-looking contrivance, resembling at first sight, a small "barrel organ." This machine is in the joint ownership of Messrs. Dalton and Barber and was borrowed by Snow when he was expanding the Rosborough stubs. Snow read off the amounts on the stubs and the several amounts were "touched off" on the machine by an assistant. When the lever was pressed for the purpose of revealing how many thousands of dollars had been tapped on its keyes the machine put down the total of $5,863.15. That sum was just $538.62 more than the stubs showed Rosborough had collected that day (November 20th, 1894) and there was made the assertion that he was just that sum short. Then the figures were compared with the original entries. It was shown that some irregularities had crept in among them, and when those irregularities had been straightened out, it was shown that $51.12 would have to be deducted from the total, leaving $5.812, making the amount collected $5.812.03. Then Park and Rosborough made their discovery showing that Snow's figures charged Rosborough with $487.50 than should not have been charged against him.

How the machine could have made so great a mistake Snow says he does not know because he is satisfied that he called off the amounts correctly and furthermore that he knows the man who manipulated the machine is noted for his accuracy.

Mr. Snow was asked to explain whether or not a similar mistake could not have been made in the determination that Rosborough was also $90 short in his payments to the County Treasurer. He replied that such could not be the case. He had verified Mr. Barber's figures as to the amount of taxes unpaid and Rosborough's showing lacked $90 of reaching the amount. This amount Mr. Rosborough says he will pay.

SIXTEEN TO ONE.

A Trite Explanation of What the Proportionate Statement Means.

Sixteen to one means in practice, that 16 ounces of silver shall be held as worth as much as 1 ounce of gold. One ounce of gold "American coin standard of fineness, that is 900 parts of pure gold and 100 alloy will coin, in gold dollars $18.60. 16 ounces of silver, American coin standard of fineness, that is 900 parts of pure silver to 100 of alloy, at the rate of 412½ grains to the dollar (the weight of the present standard silver dollar) will coin $18.60 in silver dollars. These 16 ounces of silver can be bought in the markets of the world today for 9.94 dollars.

There would therefore be a profit of $8.66 on an investment of $9.94, being about 87 per cent. if the holder of silver could take it to the mint and coin it without charge into silver dollars. The advocates of free silver favor a law that will allow any holder of silver bullion, or in fact silver of any kind (as the latter can be melted into bars) to have the right to take the same to any mint of the United States and convert it into silver coin free of charge.

The House Fly Could Be Exterminated.

The house fly is a nuisance to mankind, and there is no reason why the nuisance should be allowed to continue unabated.

There is no more efficient disseminator of deadly microbes than the house fly, inasmuch as it has a fondness for all filth. An easy method is offered by which house flies could be practically exterminated in this country within three or four seasons.

If every stable owner were obliged by an ordinance, strictly enforced, to keep on his premises a saucer containing some water and a little of a certain kind of poison, the flies would soon be practically exterminated. It should be understood that all house flies are stable born. They breed nowhere else.

Poison fly paper in a plate or other receptacle, with water, is a familiar object. The poison is a preparation of arsenic, known to apothecaries under the trade name of "cobalt." It may be purchased in the crude from any druggist, and one cent's worth of it will last for years. The stable owner need only keep a small quantity of it in a saucer during the summer months, and the flies newly hatched on his premises will go straight to it if a little water be added each morning. Their extermination will follow.

It seems not unlikely that in the course of time the mosquito pest of New Jersey will be to a great extent modified by the adoption of a measure that has been found most effective and at the same time cheap. Mosquitoes are able to reproduce their kind only in stagnant water, where they lay their eggs. A few cents' worth of crude petroleum will cover many acres of such water with a thin film. The oil thus spread kills the larval insect immediately.—From the New York Journal.

PROCLAMATION.

STATE OF CALIFORNIA,
EXECUTIVE DEPARTMENT,
SACRAMENTO, July 20, 1896.

WHEREAS, The Legislature of the State of California, at its thirty-first session, beginning on the seventh day of January, A. D. 1895, two-thirds of all the members elected to each of the two houses of said Legislature voting in favor thereof, proposed the following prescribed amendments to the Constitution of the State of California, to-wit:

Amendment Number One.

(Assembly Constitutional Amendment No. 35.)

ARTICLE XIII.

Section 1. All property in the State not exempt under the laws of the United States, or this Constitution, shall be taxed in proportion to its value, to be ascertained as provided by law. The word "property" as used in this article and section is hereby declared to include moneys, credits, bonds, stocks, dues, franchises and all other matters and things, real, personal and mixed, capable of private ownership; provided, that property used for free public libraries and free public museums, growing crops, mortgages, trust deeds, property used exclusively for public schools, and such as may belong to the United States, this State, or to any county or municipal corporation within this State, shall be exempt from taxation. The Legislature may provide for a reduction from credits of debts due bona fide residents of this State.

Section 2. Section four of article thirteen of this Constitution is hereby repealed.

Section 3. Section five of article thirteen of this Constitution is hereby repealed.

Amendment Number Two.

(Senate Constitutional Amendment No. 41)

ARTICLE II.

Section 5. All elections by the people shall be by ballot or by such other method as may be prescribed by law; provided, that secrecy in voting be observed.

Amendment Number Three.

(Assembly Constitutional Amendment No. 15.)

ARTICLE XII.

Section 3. The liability of stockholders of corporations or joint stock associations shall be limited by the face value of the shares of the subscribed capital stock or shares of such corporation or association; and whenever any shares have been fully paid up the holder of such shares shall not be further liable to such corporation or association, or the creditors thereof, on that account. Each stockholder of a corporation or joint stock association, whose capital stock is not fully paid up, shall be individually and personally liable for such proportion of all its debts and liabilities contracted or incurred during the time he was a stockholder or shareholder, as the amount unpaid upon the stock or shares owned by him bears to the whole amount unpaid upon the subscribed capital stock or shares of the corporation or association. The Directors or Trustees of corporations and joint stock associations shall be jointly and severally liable to the creditors and stockholders for all moneys embezzled or misappropriated by the officers of such corporation or joint stock association during the term of office of such Director or Trustee.

Amendment Number Four.

(Senate Constitutional Amendment No. 25.)

ARTICLE XI.

Section 6. Corporations for municipal purposes shall not be created by special laws; but the Legislature, by general laws, shall provide for the incorporation, organization and classification, in proportion to population, of cities and towns, which laws may be altered, amended or repealed. Cities and towns heretofore organized or incorporated may become organized under such general laws whenever a majority of the electors voting at a general election shall so determine, and shall organize in conformity therewith; and cities and towns heretofore or hereafter organized, and all charters thereof framed or adopted by authority of this Constitution, except in municipal affairs, shall be subject to and controlled by general laws.

Amendment Number Five.

(Senate Constitutional Amendment No. 28.)

ARTICLE XI.

Section 8½. It shall be competent, in all charters framed under the authority given by section eight of article eleven of this Constitution, to provide, in addition to those provisions allowable by this Constitution and by the laws of the State, as follows:

1. For the constitution, regulation, government and jurisdiction of Police Courts, and for the manner in which, the times at which, and the terms for which the Judges of such courts shall be elected or appointed, and for the compensation of said Judges and of their clerks and attaches.

2. For the manner in which, the times at which and the terms for which the members of Boards of Education shall be elected or appointed, and the number which shall constitute any one of such Boards.

3. For the manner in which, the times at which, and the terms for which the members of the Boards of Police Commissioners shall be elected or appointed, and for the constitution, regulation, compensation and government of such Boards and of the municipal police force.

4. For the manner in which, the times at which, and the terms for which the members of all Boards of Election shall be elected or appointed, and for the constitution, regulation, compensation, and government of such Boards, and of their clerks and attaches; and for all expenses incident to the holding of any election.

Where a city and county government has been merged and consolidated into one municipal government, it shall also be competent in any charter framed under said section eight of said article eleven, to provide for the manner in which, the times at which, and the terms for which the several county officers shall be elected or appointed, for their compensation, and for the number of deputies that each shall have, and for the compensation payable to each of such deputies.

Amendment Number Six.

(Assembly Constitutional Amendment No. 11.)

ARTICLE II.

The City Equalizers Consider Street Railroad Cases.

The Seventh Street Local Is a Stumbling Block.

AUDITOR SNOW'S OPINION.

Applications for Reductions by Many Property Owners.

President Mott and Councilmen Manuel and Watkinson were absent last evening at the meeting of the City Board of Equalization and as a consequence all but one of the applications for reductions in assessments were laid over for. Brosnahan said, if any member had a pet corporation that he did not want to see turned down let him come up and take his medicine like a man. The rest of the members present voted aye on the motion to adjourn.

It was half past 8 before the meeting was called to order, with Brosnahan in the chair. Bassett was the first to get the floor and offered a resolution instructing the Assessor to assess the Alsop franchise, as Heitmann said he had a resolution which included this. Bassett withdrew his.

The first matter taken up was the application of the Alameda, Oakland and Piedmont Railway Company. A letter was read from President Rank of the company. It stated that the Assessor had valued the ties, road bed, etc., at the same amount he had last year, that is $43,450. Rank called attention to the fact that the property had through wear and tear depreciated in value.

As none of the railroad people were present the application was laid over to be taken up later in the evening if they came; on next Monday night if they did not.

Heitmann then called up his resolution which directed Wells Whitmore and E. K. Alsop to appear before the Board of Equalization on August 18th and show cause why their franchise for a street railway on Franklin and other streets should not be assessed.

Assessor Snow, who was present, said he would assess it anyhow.

"Well, it is funny that this has never been assessed," said Heitmann. "Here these men hold one of the most valuable franchises in this city. They have two rails laid on Franklin street to retain their rights and yet never before has it been assessed a cent."

The roll was called on the resolution, Dow alone voted no, saying that he believed it unnecessary, as City Assessor Snow had said he should assess the franchise anyhow.

THE BERKELEY ROAD.

The Oakland Consolidated Railway Company's application was read. It asks for a reduction from $23,225 to $8,087 on the line running from Second and Broadway to the northern boundary line of the city and on the franchise therefor from $25,000 to $1,063; on the Sixteenth street branch from $10,000 to $5,535 and the franchise from $5,000 to $1,000; on the Eighth street branch from $16,650 to $7,524, and on the franchise from $10,000 to $5,000.

Superintendent Grim was sworn and said that the road bed was not worth the assessor's valuation as it depreciated in value yearly.

Bassett stated that the company's rails on Sixteenth street were above the grade and on Eighth street below it, so that if the company did nothing the city would need all the money it could get to pay for fixing the streets. The company, he said, was not anxious to comply with the requests of the Street Superintendent and he did not feel that they should ask favors from the city.

It was moved to lay the matter over until all the members were present and the motion was carried.

F. A. Elliott's application for a reduction from $2,000 to $1,500 on lots in East Oakland was granted. This was the only application disposed of during the evening.

The application of Henry Rodgers for a reduction of from $27,500 to $20,000 on the Merritt block at Twelfth and Franklin streets was taken up.

Rodgers stated that the Kahn building at Twelfth and Washington streets was assessed at $23,000 and the Canning block at $22,500. Both buildings, he said, were as good as his, and he thought therefor, the reduction should be made.

The matter was referred to a special committee consisting of Kaufman, as an architect, and Marshall as a real estate man, to investigate and report tomorrow evening.

No one appeared to argue the Mary Bonham Nicholson application for a reduction from $1,600 to $1,000 on her real estate, so it was laid over.

The Wm. McDonald application was referred to the special committee.

THE EAST OAKLAND ROAD.

There was one new application, filed by the East Oakland Street Railroad, E. P. Vandercook, in his affidavit, stated that the road from Eighth and Broadway to Eighth avenue and East Eighteenth street was assessed for $13,200 and was not worth over $7,775, from East Eighteenth street Eighth avenue to Twenty-third avenue for $5,200 and its value was $3,000; the Eighth avenue branch for $3,475, and its value was $1,660; the Trestle Glen branch for $5,725, and its value was $3,425; the Harrison street branch for $2,350, and its value was $2,000. The franchise is assessed for $25,000 and Vandercook declared it was not worth over $100; the cars for $9,000 and should be reduced to $8,000; the machinery at $9,000 and should be reduced to $7,500.

No one was present to argue the application and it went over to Monday.

Up to this juncture the evening was devoid of argument, the only one occurring being over the Alsop franchise, but Bassett made a motion instructing the Assessor to assess the Seventh street local line and the rest of the evening was spent in discussion.

Heitmann then called up his resolution which directed Wells Whitmore and E. K. Alsop to appear before the Board of Equalization on August 18th and show cause why their franchise for a street railway on Franklin and other streets should not be assessed.

Brosnahan called Bassett to the chair and spoke in favor of adjourning and the Board did so.

Stories of George Law.

Anecdotes of Mr. Law might be multiplied indefinitely, but the following show him in his greener days to have been even in embryo the unconventional George Law of the latter times. His father, it appears, was a strict disciplinarian, and made his son drive a car twice a day from Fifty-ninth street to the Astor House, so he might know the business from the dashboard up, as it were. Young Law was driving up the Eighth avenue late one cold drizzling night, when a young friend jumped on the front platform and invited the future railroad president to have a drink. He proposed that the car should meanwhile be left in charge of the conductor.

Law, after he had carefully digested the proposition, said he thought he knew a better plan, and, whipping up his horses, he switched his car into Fifty-fifth street and drove over the cobble stones to a resort in the middle of the block kept by a former boxing instructor in Columbia College. The car drew up at the door of the saloon with all its windows broken and all its passengers bruised and angry. Law mollified them, however, by treating all hands. The horses were then changed to the other end of the car and the car restored to its proper position in Eighth avenue.—New York Times.

"A DAY IN BOHEMIA."

An Enjoyable Entertainment to Be Given in Alameda.

The Boys Brigade Will Depict Camp Life in the Redwoods.

An entertainment that for originality and completeness of arrangements has never been surpassed in this section is to be given tomorrow evening at Armory Hall, Alameda. It is entitled "A Day in Bohemia," and will consist of an exact reproduction of the encampment there of the Second Regiment of the Boys Brigade from the 8th to the 14th of July.

The stage will be arranged exactly like the place where the boys made their headquarters in the redwoods. Tents will be pitched, a flag pole in position and all details attended to with great precision and exactness. The entertainment will consist of a number of living pictures in which the boys will show their life in the forest. An idea of the arrangements can be best obtained by the programme which is as follows:

Music
1 Reveille.
2 Inspection
Recitation by Mrs. George Sturdevant
3 Mess call
4 Sick call
Soprano solo by Mrs. Allardyce.
5 Church call
6 Guard mount.
7 Open camp
Flute solo by Major Henry Fina.
8 Mess call
9 Court martial.
10 Mess call
Music
11 Dress parade
12 Retreat.
13 Service
14 Campfire
15 Snipe hunt.
Vocal duett by Mr and Mrs Allardyce.
16 Tattoo
17 Guard relief.
18 Taps
19 "All's well"

The musical numbers will be interspersed with the tableaux the whole making a thoroughly enjoyable programme.

That there will be a big attendance is certain for the Boys Brigade is one of the most popular church organizations. There is one company attached to each church—for the brigade is undenominational and a ladies auxiliary is also in evidence. It is to the auxiliary that the entertainment tomorrow is due, the affair having been arranged by the following ladies: Mrs Hamilden, Mrs Walton, Mrs Jenkins, Miss Cobbledick and Miss Harp. Major Taylor is on the press committee and has had valuable assistance from Lieutenants Bird and Hobson. To Miss Jones of the Committee on Publication and Mrs James F Barber much credit is due for the zeal with which they have labored to make the event the success it undoubtedly will be. Admission will be 25 cents. Children 10 cents.

A SHOT AT SOMEONE.

Eva C. Cameron Sends Work to "East Oakland Gossips."

Auburn, August 4, 1896

Editor Tribune: Sir: Will you please insert a few lines in the Tribune where it will be seen by some of East Oakland's gossips. That I, Eva C Cameron wish it be known that I am not married and have no such intention.

Respectfully,
MRS EVA C CAMERON
Auburn, Placer County, California.

OUR CHIEF CONCERN.

(For the Tribune.)

When the raindrops on our windows patter,
And the winds sweep by with a dismal clatter,
And the night is dark, and stormy the weather,—
Nor night nor storm shall last forever
And when the storm and din shall cease,
How welcome then shall be our peace—
Joy, joy, and rest in sweet surcease!

We seem afloat on a billowy sea,
Mid angry winds and waves agleo—
We're all at best in ceaseless striving,
And life at most, were but surviving,
But 't matters little, what is before us—
What reckless winds and waves sweep o'er us,
If God's own hand shall safe restore us

Aye, life, indeed, hath stormy weather,
But the chief concern with us is whether
We meet its duties with brave endeavor.
If so, e'en fates we may command,
And angels, kind, lend helping hand!
Then we may calm and safe await,
While God's own hand unfold our fate—
T'll Seraphs wait at the "Golden Gate,"
Beyond our ocean's stormy dim,
And welcome us Heaven's ports within.

Bryan Is Too Ambitious.

Mr. Bryan's oratory possessed the preeminary iridescence and soaring power of a soap-bubble, but time has pricked it, showing a watery basis and a capability of collapse equalling that of a Chinese lantern or an opera hat. He will not be studied in after time with those roaring old classic blades, who shook the arsenal and fulminated over Greece, nor with Cicero and Hortensius, to say nothing of Chatham and Daniel Webster and Colonel Ingersoll. He is a nimble-tongued young sapient, whose sleep has been disturbed by the trophies of Miltiades, and to whom the sedative of defeat will be as hops or poppies. He is about as fit to be President as to be pontifex maximus or the high priest of Apollo, and his chances for one or the other are happily about equal.—From the Tribune (Rep.) New York.

FRATERNAL NEWS

Post Consolidation Is Again Discussed in Veteran Circles.

PROSPECTS OF A DEAL.

Red Men Give Evidence of Forging to the Front.

A CONFERENCE OF COUNCILS.

Lodgeroom Gossip Gleaned in a Variety of Circles.

The summer vacation has not ended yet, and as a consequence there are many leading members of fraternal orders who are still sojourning at resorts along the seaside or tenting in the woods or mountains. For that reason there has not been much activity, the past week, in the anteroom of the fraternal lodges. Some of the events, however, which have transpired will be found recorded below.

Grand Army of the Republic.

The announcement made in this department of the attempt that is being made to consolidate Lyon and Appomattox Posts, G A R, has attracted a great deal of attention, for the reason that many members of both organizations hope that the project may now be carried through in a successful manner.

This is not the first time that this subject has been introduced among the members of both organizations. In the past, it has been a subject which has not been discussed in the most friendly manner, for the reason that a consolidation, it was thought, could not take place without causing both posts to make sacrifices to which neither would consent. Lyon Post wanted to retain its old name and number, and Appomattox Post did not wish to lose its name. When the last mentioned post came into existence, it was the only post of the name in the Grand Army. It was also the first post to assume that name, and, as the name will forever live in the history of this country, the post naturally disliked to abandon it even for the sake of consolidation.

When the idea of consolidating was first announced it was thought that the only way by which such an arrangement could be effected was by the surrender of the name and number of Appomattox Post. It was even held that it would be impossible for Appomattox to have its name retained as a part of the title of the proposed new post.

It now appears that with respect to the name of the post at least, there is no necessity to sacrifice that of Appomattox, because under recent decisions of the National Encampment and actions in this State, it has been shown that it is allowable for two posts to consolidate under a dual name, and thus lose only one of the roster numbers in the department.

Under such an understanding, it is possible for Lyon and Appomattox Posts to come together under the name of Lyon-Appomattox Post, and at the same time retain the number of Lyon Post.

Such a consolidation has been effected in Santa Cruz when Wallace and Reynolds Posts came together under one number and are now under the compound name, working together in a most harmonious manner.

The precedent of the Santa Cruz Posts may be looked to by the local organizations and followed by them, because it removes one of the greatest obstacles which has thus far kept these organizations from re-doubling their usefulness in a solid and compact post of several hundred members.

Red Men.

The thirty-first Great Sun Session of the Great Council of the Imperial Order of Red Men is now in session in San Francisco. It is considered the most successful gathering of the kind that has been held in this State. In a certain way the glory is reflected in Oakland, because this city has always been strongly identified with the principles of the Red Men.

In the Great Council, the county of Alameda is represented as follows:

Grey Eagle, No 56, of Oakland—O M Burnham, W W Moore, W H H Hussey, A McLeod.

Pawnee No 67, of Alameda—T Campbell, D E Dunn, G M Noble, W J Robinson.

Comanche, No 79, of Elmhurst—W J Keating, W H Whipple, E J Leonard.

Pottawatomie No 84, of Haywards—A C Malone, G L Langan, J G Hanks.

The Great Council degree was conferred on thirty-nine representatives.

In his address of welcome to the delegates, F D Brandon, who is a Past Grand Sachem, gave the following interesting epitome of the history of the order. "The Red Men," he said, "traced their origin to the Sons of Liberty, who were in existence in America in 1765. After the Sons of Liberty had come the Sons of St Tammis, which society was formed in 1771 and was merged into the Tammany in 1789. From 1789 to 1833, the society was fraternal, but not beneficial. In 1833, starting with a membership of something less than 40 000, the society went to work making converts of the palefaces, until now there are more than 150,000 Red Men in the United States."

Colonel Andrews of San Francisco is now the only surviving California member of the Great Council of the United States. He once held the office of Great Mishinwa.

Four tribes were instituted during the past year, as was shown by the report of Great Sachem A Jackson.

Mr Jackson also referred to the fact that many of the laws of the order are ambiguous and ought to be amended. He recommended that every tribe on the reservation set apart for the sick and funeral fund a proportion of its income, which should be used for no other purpose. A member who contributes to the fund for twenty-five or thirty years in his younger days should be guaranteed, so far as possible, that he will receive his sick benefits if he has the misfortune to require them when in the sere and yellow leaf.

It was also shown as a result of the council that the degree of Pocahontas is in a flourishing condition, having twelve councils in this State, all of which are in a good financial condition and are increasing in membership.

Grey Eagle Tribe gave a smoker Wednesday night, and was visited by P. G. S. Betts and D. D. G. S. Campbell and others. A pleasant and instructive evening was experienced.

Young Men's Institute.

The Board of Grand Directors of the Young Men's Institute will meet in Y. M. I. Hall on the 8th inst.

United Workmen.

The meeting of Oak Leaf lodge No 35 A O U W, was fairly well attended last Monday evening. One new candidate was elected.

The committee appointed to visit the sick reported that Brother Charles Hurd, one of the victims of the late railroad accident at Niles Canyon, was improving beyond the most sanguine expectations and that his injuries, while serious, will leave no permanent disability.

Brother Cogan announced that the grand open meeting of the combined A O U W lodges of West Oakland will be held in the Methodist Church in that section of the city Tuesday evening, August 11th, not Friday evening August 14th, as erroneously announced in 'The Watchman."

Brother Cogan stated that Past Grand Master Workman Dupree and Grand Master Workman Vintner will both be present to deliver addresses and that a delightful programme had been arranged for the occasion.

Grand Recorder D S Hirshberg announced that the adjourned grand lodge convention will again convene Tuesday September 1st, in Shiels' building, San Francisco.

Past Masters McAlister and Jacobson, who have both been quite sick, were present and made eloquent remarks. Brother Tucker and Colquhoun also made remarks during the evening.

Degree of Honor.

The hall in which Ivy lodge No 4, Degree of Honor, A O U W, meets was a veritable bower of roses last Wednesday evening, the transformation having taken place under the deft hands of the sisters comprising the Committee on Entertainment.

During the evening one new member was elected.

Sister Wood, Past Chief of Honor of Ivy lodge, now a resident of Pacerville, entered the hall while the meeting was in progress, escorted by Brother Greenbaum. The hearty reception which she received will no doubt live long in her memory. For several minutes round after round of applause greeted her. Sister Wood acknowledged the reception in a speech that was heartfelt and eloquent.

Grand Chief of Ceremonies Mrs Norman of Montana made a few pleasant remarks flattering to Ivy lodge.

Lady of honor Mrs Hodges made a pretty little speech which was loudly applauded.

The following excellent programme was then presented by Sister Josie Sutter, chairman of the evening: Piano solo, Mrs Holmes; recitation "A Revolutionary Story," Past Chief of Honor Mrs Oakes; recitation "A Little Red Jacket," Miss Hettie Young of Silver Star lodge; song, "Tom' Bowling," Brother Oakes, who responded to an encore, speech by Past Chief of Honor Mrs Mitchell.

After the literary and musical portion of the exercises was concluded a banquet was enjoyed by all.

Besides the strawberries and cream and other dainties prepared by the committee ten gallons of ice cream, the gift of Past Chief of Honor Mrs Wood, were served.

Native Sons.

Grand Trustee Rod M Church of this city is making his official visits to parlors in the northern portion of the State. He visited Humboldt No 14, Golden Star No 88, and Ferndale No 93 and found them in good condition and progressing.

The parlors known as General Winn, No 32, Mount Diablo No 101, Central No 110, and Byron No 170, comprising Contra Costa County district, will consolidate for the celebration at Stockton on Admission Day.

Odd Fellows.

The Veteran Odd Fellows' Association is now making arrangements to visit all the Odd Fellow lodges in this city and the visitation will soon take place.

Knights of Pythias.

Oakland lodge No 103, K of P, at its last convention received the report of the committee on investigation on the five applications previously received. The strangers were balloted for and elected, after which the Page rank in a very impressive manner was conferred on Stranger Kirkwood. The Castle Hall was thronged with members of the order and conspicuous among them were the visitors. Nearly every lodge in the city and county was represented. Alameda lodge No 49 sent over a large delegation, all of whom commended the lodge for its excellent work.

Under the head of "Good of the Order" remarks were made by the C C of Alameda lodge, Whalley of lodge No 172, Dixon of Nebraska, Holland and Arnolt of No 17 Lookne, of lodge No 1 2, and Schwartzbaum of No 172, Curtis of No 161 entertained the lodge with a vocal solo entitled "The Faded Coat of Blue." H B Rusk of lodge 172 enlarged upon the subject of Matrimony from its six days experience of conjugal bliss.

Tomorrow night Strangers Ellison Moon and Peck will be initiated into the mysteries of the Page rank and Squire Kolbeck will be elevated to the Knight rank in the amplified form.

Grand Chancellor C F McGlashen officially visited Piedmont lodge last Monday night. The distinguished visitor received a cordial welcome from the assembled brethren.

Calanthe Temple No 6 last Tuesday night held it regular dime social and entertainment, which resulted in a great success both socially and financially. The following programme was rendered:

Duet, by Misses Anderson and Fansen; recitation, by Mrs Schultz, vocal solo, Miss Benson, specialties by the Misses Newhardt, recitation, by Mrs Baldwin, instrumental solo, Miss Bacon, comic specialties, by Mrs Jones and Newhardt.

Chosen Friends.

At the next regular meeting Unity Council No 179, O C F, will have its new officers installed. The members of the order are required to be present on that occasion. The district deputy, Friend E. Freeman, will perform the duty as installing officer. Members of the Grand Council are expected to be present.

This council is getting along very nicely since it adopted the new plan. It has three applications to be presented at the next meeting.

Eighteen insurgents have given themselves up to the authorities at various points.

MORE MEETINGS.

NEW YORK, August 6.—A dispatch to Herald from Havana says: A correspondent in Baracoa communicates news of recent important military operations in the district. Colonel Alarez, with the forces of the Talavera battalion, a detachment of local volunteers and a body of the civil guard after a severe engagement, lasting five hours, and a brilliant charge, captured a big rebel stronghold, at Cuchillas de Ciguima, defended by 800 insurgents. Many houses were destroyed and a great quantity of munitions captured. The rebel loss as reported as heavy. Several officers were among those wounded on the Spanish side.

A train on the Havana and Batabano railway was attacked by insurgents near San Felipe. Several volleys were fired into the cars but the troops were not hurt. The Spanish escort on the trains returned the rebel fire, but the result is not known. The train proceeded.

Official Santiago de Cuba reports say that the warship Galicia bombarded and destroyed insurgent camps on the coast near Partillo.

Consul-General Lee yesterday renewed his efforts to have the Competitor's crew transferred to better quarters, and in a note to the Captain-General also insisted that the prisoners should be better fed. Several of the men are ill and unless the Spanish prison authorities improve their diet the Consul General purposes to ask that the prisoners' friends in the United States be allowed to contribute to a fund to provide them with necessities.

A new battalion of volunteers has been organized in Maltanzas. Jose M Gonzales, a prominent lawyer of Quivicon was arrested yesterday and is held prisoner there as a political suspect.

Surgeon-General Losada is urging Captain-General Weyler to designate the Isle of Pines as a sanitarium for army convalescents. The island contains mineral springs of notable excellence and is generally regarded as the healthiest spot in the West Indies.

FLOODS IN NICARAGUA.

Rivers Run Like Torrents and Much Property Is Destroyed.

By Associated Press to The Tribune.

NEW YORK, Aug 6.—A dispatch from El Rama, Nicaragua, says:

Heavy rains caused the rivers Rama and Siqua in this neighborhood to rise rapidly on July 19th last. The panic-stricken inhabitants took refuge on the high grounds and on board the steamers in the river Rama.

Two of the steamers, the Milton and Horrock, were carried by the force of the current far down stream, their crews being powerless to stop them. The Governor of Bluefields at once organized a relief corps and put provisions on board a steamer for those who had been carried down the river.

The police and a committee of citizens distributed relief. Only a few buildings were left standing by the flood in El Rama. The plantations near the town were all destroyed and the loss is estimated at more than $1,000,000. Many of the refugees have found shelter in Bluefields. Two lives were lost.

BLOWN UP.

An Engine Explodes With Fatal Effects in a Harvest Field.

By Associated Press to The Tribune.

ANDERSON, Ind., Aug 6.—Just as a threshing crew was finishing threshing on the farm of William Wymant in the southwest part of this county last night, the traction engine was completely wrecked by the boiler exploding.

David Wymant was killed outright and others whose names cannot be learned, were injured.

The meagre reports indicate that two of the cases will be fatal. Nothing was left of the engine.

It seems that the engine had been considered unsafe for several days.

NEGROES CUT OFF.

An Important Decision Is Given About the Creek Nation.

By Associated Press to The Tribune.

PERRY, Oklahoma, Aug. 6.—The final decree has been promulgated from Okmulgee, the capital of the Creek Nation, as it had been handed down by Judge Adams, chief justice of the Supreme Court of the Nation, in the citizenship case.

It strikes from the rolls of citizenship of the Nation the names of over 1,700 negroes.

The decision held that the action of the Indian Council, after the passage of the Emancipation Act by the United States, in admitting negroes to tribal relations was unconstitutional and therefor at this time invalid.

Since the passage of the act these negroes have drawn in annuities $1,000,000 from the Creek Government, have held positions of official trust and have improved their farms and educated their children at the nation's expense for twenty years.

From the decision of the court there is no appeal. The Interior Department has held to the same opinion in a similar case.

The Dawes Commission, which has been appealed to by the deposed negroes, claims it has no right to interfere with the decision of the Indian Court.

ORDERED TO GO.

White Residents of Arkansas Descend on the Negroes.

By Associated Press to The Tribune.

TEXARKANA, Ark., Aug. 6.—A war between whites and negroes is imminent in Polk County, Ark., on the line of construction of the Texarkana and Fort Smith railroad. It seems that the hardy old mountaineers of that section have not allowed any negroes to stop in that section for years.

The contractors building the railroad now under construction are employing colored labor, and as a result the natives have served notices on them that Sambo must move on, as it is against their religion to permit them to desecrate their soil with picks and shovels or otherwise. As a last resort Contractor D J. McDonald came here and employed a force of twenty guards to protect the negro laborers, and these, armed with Winchesters, have left for the scene of the prospective trouble.

The railroad people express their firm purpose to protect their rights and as the other side is known to be equally determined serious trouble is almost certain to follow.

Do not delay, but register at once. County Clerk's office open from 7 30 to 9 P. M. every night.

A POLITICAL DODGE.

Insurance Companies and a State Auditor Are Clashing.

By Associated Press to the Tribune.

DENVER, Aug. 6.—It is announced that State Auditor Parks, who is ex-officio insurance commissioner, is about to spring a surprise upon some of the leading insurance companies.

Several companies, it is said, have recently been sending circulars to their policy holders containing the assertion that if the Democratic party is successful in the coming election their policies will be worth but half the amount on which the premiums have been paid.

It is said Mr Parks has been quietly securing a collection of these circulars which he claims are evidences of insolvency on the part of the companies and he now proposes to cancel the licenses of all such companies which are now doing business in this State.

It is claimed that the Auditor's judgment in such cases is final and that if he insists upon this course the companies will be barred from doing business in the State.

By Associated Press to The Tribune.

GRAND RAPIDS, Mich, Aug. 6.—Mayor Hazel M. Pingree of Detroit was nominated for Governor on the fourth ballot at the Republican Convention today.

Pingree received 449 votes on the last ballot and Bliss 268.

Pingree's nomination was made unanimous.

WISCONSIN'S WELCOME.

Senator Thurston Is Given an Ovation by the Delegates.

By Associated Press to The Tribune.

MILWAUKEE, Aug. 6.—When the Republican State Convention re-convened this morning the roll call of districts was resumed for seconding speeches for Governor.

Senator Thurston, who is a Wisconsin man, was introduced. An ovation was given him. He made a brief address.

Four ballots for Governor were taken without a choice, Scofield of La Follette being the leading candidate.

The entire old State ticket below Governor was nominated by acclamation. The convention then adjourned.

REED IS ALL RIGHT.

He Is Nominated for His Tenth Term in Congress.

By Associated Press to The Tribune.

PORTLAND, Maine, August 6—Speaker Thomas B. Reed was nominated by acclamation for the tenth consecutive term of Congress by the Republican Convention, First District today.

THE DEMOCRATS.

WATERVILLE, Maine, August 6.—When the resolution endorsing the Chicago candidates and the platform were presented to the Democratic State Convention today, William Henry Clifford of Portland objected in a sensational speech which was greeted with hisses. Clifford and thirty followers bolted the Convention.

M. D. Frank of Portland was nominated for Governor.

WATSON IN THE CHAIR.

The Georgia Populists Assemble for Their State Council.

By Associated Press to the Tribune.

ATLANTA, Ga., Aug. 6.—The largest and most enthusiastic State Convention the Populists of Georgia ever held assembled today.

The presence of Thomas Watson, the party's nominee for Vice President, added interest to the occasion.

A preliminary caucus was held and practically settled the action of the convention on the Gubernatorial question.

Judge James H. Kines and W. L. Peek, candidates of the "Middle-of-the-Roaders," flatly declined to allow the use of their names, leaving the field to Rev. J. B. Gambrell, the Prohibition candidate.

Thomas E. Watson called the convention to order at 11:46.

Watson made no speech, but the dropping of his gavel was the signal for a wild outburst of enthusiasm.

Watson was requested to continue in the Chair until the permanent organization was completed.

THE KICK IN KANSAS.

A Settlement Though Is Said to Have Been Reached.

By Associated Press to The Tribune.

ABILENE, Kan., Aug. 6.—The nomination of Senator Leedy for Governor at 2 o'clock this morning left the delegates of the Populist Convention in a mood for quick work today.

Senator Peffer opened the session with an address advocating fusion of the silver forces on a basis of the votes cast for all offices.

The convention quickly adopted the Resolution Committee's report. The resolutions endorse the St. Louis platform and Bryan and Watson.

A telegram was ordered sent to the Populist Conventions of Texas, Georgia, Nebraska and Alabama, informing them of the endorsement of Bryan and Watson.

Judge Frank Dosier was nominated Chief Justice.

UNWELCOME NEWS.

HUTCHINSON, Kan., Aug. 6.—Judge Atwood, ex-Senator Martin and W. P. Dillard, members of the Democratic Conference Committee sent to Abilene to confer with the Populists on fusion, returned to Hutchinson today on the first train and were immediately surrounded by anxious Democrats.

When the conferees announced that no agreement was reached the disappointment was keen.

The sentiment in favor of rigid resistance to the encroachment of the Populists upon the Democratic Bryan and Sewall electoral ticket almost immediately took another boom.

Everywhere delegates expressed themselves as emphatically opposed to carrying on negotiations except on the original propositions of the Democrats to endorse the Populist State ticket.

Ex-Senator Martin made a short report of the Joint Conference Committee's session yesterday to the convention and said he and his associates returned to report progress and hold out encouragement to the waiting delegates. He suggested the convention adjourn to 2 o'clock today to await results. The motion carried.

SAID TO HAVE WON.

KANSAS CITY, Aug. 6.—A special to the Star from Hutchinson, Kan., says: "Just after the adjournment of the convention this morning a telegram was received by B. E. Murphy from J. G. Johnson, stating the Populist Conference Committee agreed to report in favor of the endorsement of the Democratic electors and this report will be made to the Populist Convention later in the day."

THE TEXANS.

A Host of Amendments Are Offered for the Platform.

By Associated Press to The Tribune.

GALVESTON, Tex., Aug. 6.—In the Populist State Convention today a telegram was read from the Populists of Nebraska, stating that Nebraska endorsed the action of the St. Louis Convention.

A resolution was adopted providing that notes and securities not rendered for taxation should be void. The prime object is to shift the burden of taxation on the holders or vendors of lien notes and relieve land owners to the extent of their indebtedness on the same.

The amendment to the platform demanding an appropriation for the improvement of Texas harbors and waterways was adopted.

An amendment limiting the salaries of county officers to $2,000 was adopted by a large majority.

An amendment providing that contractors shall work men but eight hours a day was carried after much debate.

The amendments are so numerous that it will take all day to complete the platform.

MISSOURI'S MEETING.

Nominations Are Made at the Convention at Jefferson City.

By Associated Press to The Tribune.

JEFFERSON CITY, Mo., Aug. 6.—The Democratic State Convention today nominated:

For Auditor—James M. Seibert of Cape Girardeau, on the first ballot.

For State Treasurer—Frank L. Pitts of Monroe, by acclamation.

TAMMANY IN DOUBT.

Hill Gives a Dinner and Talks Over the Situation.

By Associated Press to The Tribune.

NEW YORK, August 6.—Senator David B. Hill gave a complimentary dinner to Senator Jones of Arkansas at the Normandie-by-the-Sea last night. Among the guests present were: Lawrence Gardiner of Washington, Secretary of the National Committee, James W. Hinckley, Chairman of the New York Democratic State Committee, and Assemblyman J. B. Stanchfield.

At the conclusion of the dinner a conference was held by those present. It is understood that the principal question under discussion was relative to what stand the New York State Committee would take in the National campaign. If any decision was arrived at, it was not made public last night, for none of the gentlemen present would be interviewed on the subject.

ST. LOUIS GOLD MEN.

The Democratic Committee Is Lining Up for Work.

By Associated Press to The Tribune.

ST. LOUIS, August 6.—A meeting called by the Gold Standard Democratic Executive Committee, for the purpose of forming a Gold Standard Club in St. Louis, was held last night at Chatsworth Hall.

More than 200 prominent Democrats were present and several made addresses.

Among those who spoke were Ex-Minister to Switzerland, J. O. Broadhead and Fred T. Lehman, who denounced the free silver movement. A club was organized with a membership of 200 and Rolla Wells as president.

An address was issued declaring that "the highest duty of patriotism and partisanship in this campaign is to defeat the Chicago ticket and platform. Their success means disaster to the country and the overthrow of the genuine Democracy."

MORTON DINED.

By Associated Press to The Tribune.

OMAHA, Aug. 6.—James B. Sheehan, President of the Jacksonian Club, attended a select dinner given in honor of J. Sterling Morton at the Omaha Club last evening.

Debtors Being Pressed to the Wall in the East.

By Associated Press to The Tribune.

CHICAGO, Aug. 6.—It is reported on excellent authority that trading in account on the Chicago Stock Exchange will be suspended thirty days after the Exchange shall have been opened.

It is also probable that deals in future options will be limited to a week or ten days.

All this has been caused by Moore Bros.' collapse.

No one knows when the Stock Exchange will resume active business.

The room traders and many others have begun to make loud complaints against what they call the "arbitrary action" of the Governing Board in closing the Exchange.

It is said that Moore Bros. and a special committee of the Stock Exchange will finish their labors before tomorrow night, and make a statement of the financial standing of the firm.

A PHILADELPHIA FAILURE.

PHILADELPHIA, Aug. 6.—H. Boyd, Milton Parley and George C. Boyd, carpet dealers, have made an assignment for the benefit of their creditors. The deed, dated August 5th, was filed today. Counsel for the firms said: "The liabilities are about $250,000 and the firms have on their books upward of $350,000, but owing to the business depression and a number of failures some will doubtless prove uncollectible. In addition to this they have a considerable amount of stock."

BANKS CLOSED.

NEVADA, Mo., Aug. 6.—Sheriff Scroghem closed the Conkling Bros.' Banking House in this city, also the bank of Bronaugh and the bank of Richards, all the property of Conkling Bros., this morning, under order of the Vernon County Court, the action being based on a report by State Bank Examiner Jones, who says that business was being conducted in an unsafe manner.

W. H. Conkling says the closed banks will pay every dollar of their indebtedness.

J. L. George and C. M. Shartele were appointed receivers.

ONE IN NEW ORLEANS.

NEW ORLEANS, August 6.—The American National Bank failed to open today.

The Directors decided to go into liquidation.

BROKERS FAIL.

NEW YORK, August 6.—Steven R. Post and Michaelbacher announced on the Cotton Exchange today their inability to continue.

STOCKS TUMBLE.

NEW YORK, August 6.—A drop in London prices for Americans extending to a point in St. Paul and ⅞ per cent in Louisville and Nashville, gave the traders an initiative and a demonstration against prices was made at the outset. Arbitrage houses were also sellers.

Northwest declined 1⅝. Sugar lost 7-8, despite a strong market for foreign raw sugar and local advance of the refined product.

The pressure against the list continued unabated at 11 o'clock. Current prices were in some instances the lowest for a long time. Speculative mortgages reflected continued liquidation by local and foreign holders.

Market steadier for a brief interval during the second hour. The bears, however, returned to the attack with renewed vigor.

Burlington bore the brunt of the selling, the price falling to 59¼.

After midday prominent bears put out extensive lines of various properties and succeeded in uncovering numerous stoporders. Burlington declined to 58; sugar, 100 3-4; Manhattan, 84 3-4 and other leading stocks 1, and 2 per cent. A jump in call money to 3½ per cent bill and reports of further commercial suspensions were contributary influences to a break.

The bond market displayed pronounced a heaviness with concessions extending three per cent in some receivership properties.

PORTER ARMED AGAIN.

His Revolver Turned Over to Him by the Sheriff.

Deputy Sheriff Charles White has surrendered to Louis Porter the revolver which was taken from him at the time he was confined in the County Jail for threatening to kill members of the congregation of the First Unitarian Church at services one Sunday in April of this year. Soon after his arrest Porter was sent to the asylum for insanity. He was discharged thence a short time since whereupon he demanded the weapon with which he had terrified Dr. Wendte's people. Mr. White had no authority to retain the weapon and accordingly surrendered it.

Criticism as to the Manner of Organizing the Campaign.

By Associated Press to The Tribune.

SAN FRANCISCO, Aug. 6.—John Sopher, a worthless character, this morning tried to kill his wife and then killed himself. Sopher came from Humboldt County. Five months ago the woman left her husband and went to Dixon. Sopher followed her there and attempted to shoot her. She returned to San Francisco to avoid him and he followed her here.

This morning he called at a lodging house where she was stopping and after a short conversation he put a pistol to her mouth and fired. The woman is not dangerously wounded.

Sopher then shot himself through the head, dying instantly.

KIDNAPPED OR ON A SPREE.

SAN FRANCISCO, Aug. 6.—James Campbell, the Hawaiian millionaire, who returned to his hotel last night, with a strange story of having been kidnapped and robbed, was too ill to see reporters this morning. The police are working on the case and are very mysterious. They say they will soon have a sensation.

Campbell appeared at the hotel in a dazed condition and it is stated by some that he had been on a spree and had told the story of the robbery to account for himself.

COONEY FINED FIFTY DOLLARS.

SAN FRANCISCO, Aug. 6.—Judge Slack today fined Notary Public Cooney $50 for contempt of court in failing to appear when ordered to sign a deposition in the Fair will case.

Cooney is the notary before whom the deeds to over $1,000,000 worth property claimed by Mrs. Nettie Craven as her share of the Fair estate were acknowledged. He made a deposition to the effect that Senator Fair himself had brought the deeds to him for acknowledgment. When it came time for him to sign the deposition disappeared and it still remains unsigned.

Cooney was given until tomorrow to pay his fine before going to jail.

SPRECKELS CRITICISED.

SAN FRANCISCO, August 6.—The Bulletin says the leaders of the Spear-McKinley faction of the Republican party of this city met last night and decided to prefer charges with the National Committee against John D. Spreckels the National Committeeman from this State.

Spreckels will be charged with insubordination in having organized the party contrary to the wishes of the National Committee.

The National Committee instructed the organization to be effected by Congressional Committees, but Spreckels has done the work by the County Committee. Spear-McKinley men say that the same Convention which was discredited at the National Convention has nominated a Congressional ticket in opposition to the Convention which was recognized at St. Louis by the National Convention.

The removal of Spreckels as National Committeeman will be asked.

BAD WEATHER.

Storms and Excessive Heat Are Reported From the East.

For a time all telegraphic communication with points west of this city was cut off.

The wind reached a velocity of forty miles an hour.

Just before the storm the thermometer reached 92, the highest point of this summer.

HOT IN PITTSBURG.

PITTSBURG, Aug. 6.—The heat record for 1896 was broken today, the mercury touching 96 degrees. One death and many prostrations have been reported. There was much suffering among the mill workers and many mills are closed.

Fred Elliot, one of the beneficiaries under the will of Albion H. Morse, deceased, has petitioned to have the executors of said will pay to him the amount of his bequest. He alleges that the estate is worth $87,577.51; that it is little indebted and that the property bequeathed to him ($500) may be distributed to him without loss to the creditors of the estate.

James C. Mulliken has assigned his interest in the estate of Mary A. Mulliken, deceased, to William F. Lewis of this city.

Sarah Ellen Capell has petitioned to have the will of her husband, the late Councilman J. R. Capell, admitted to probate. The beneficiaries are the widow and four children, William R., Howell P., Mattie A. and Hattie E. Capell. The estate is worth about $3,000 and comprises real property in this city.

BANKS PAY IN GOLD.

Straightforward Announcement of Oakland's Leading Capitalists.

Mr. Requa of the Oakland Bank of Savings was called upon today by a representative of this paper, and, in answer to the inquiry, in what coin his bank would repay deposits in the event of the adoption of free coinage, replied: "All of our money is loaned on gold contracts. We shall demand gold in their payment, and we shall of course pay only gold to our depositors."

The reporter likewise called upon the Union Savings Bank, the Central and the Farmers' and Merchants' Banks, as well as the commercial banks and they fully endorse the statement of Mr. Requa that all payment to depositors will be in gold coin.

OAKLAND FOR HEALTH.

The Lowest Death Rate Among Very Many Large Cities.

Secretary Schafer of the Board of Health has prepared his annual report, which will be submitted to the Board at its next meeting. It shows that during the year ending June 30th there were 723 deaths, fifty-one of which were caused by violence and forty-one of old age. Deaths caused by zymotic diseases were comparatively few, only forty-seven having occurred. Tubercular diseases lead the list, 125 deaths having been caused by consumption. August was the healthiest month, only forty-six deaths occurring in it. March of this year leads with seventy-seven. There were but two deaths in the Fifth Ward from zymotic diseases and ten in the Sixth Ward, which leads the list.

In a list of thirty-eight cities in the United States, statistics show that Oakland's death rate is lower than that of thirty-four of them, her death rate being 12.03 in a thousand of population.

The Sanitary Department has made 1,109 sewer inspections and issued 282 permits for side sewers, 649 premises have been inspected and 594 reinspections were made. Nuisances abated by it number 380.

FIGHTING THE MARSH.

The Facts About the West Oakland Club Committee.

An error has crept into the published report of the proceedings of a recent meeting of the West Oakland Improvement Club with respect to the duties of a committee appointed at that meeting comprising William Walsh, George W. Drake and James Henneberry.

It was stated that the committee was expected to do something with respect to the alleged choking of the Twelfth street sewer.

Such however is not the case. The committee in question is under instruction to confer with the Council on the very important matter of having the marsh in West Oakland bounded by Sixteenth and Twenty-second streets and Peralta and the embankment on the bay shore condemned by that body, as it has also been condemned by the Board of Health.

The condemnation by the Board of Health took place some time ago. It is desired after the Council condemns the territory in question to have the subject referred to the Board of Public Works for the purpose of abating the nuisance which exists there and which has been so long a menace to the health of the people residing in that vicinity.

THE MILITIAMEN VICTORIOUS.

A Midnight Attack on a Non-Union Man's House.

THE CROWDS ARE UGLY.

Serious Conditions Prevail at the Hoisting Works.

By Associated Press to The Tribune.

CLEVELAND, Aug. 6.—Between midnight and 1 o'clock this morning, the crowd made an attack on a building where a man named Johnson, employed at the Brown Hoisting Works, lives.

They broke the windows and yelled like Indians.

Soldiers rushed to the scene.

Part of the crowd scattered, but a dozen men stood at bay with revolvers and fired at the militiamen.

The soldiers replied with rifle balls.

Then the men scattered.

In the melee, Private Perkins of Company "B" was shot, but it is not known how seriously. He was taken away in an ambulance.

The official statement at Colonel Whitney's headquarters is that Perkins was accidentally shot while loading a revolver.

It is claimed by others, however, that he was wounded in the Luther street skirmish.

THE BOY MURDERER.

Amos Decker Tells of What He Did After the Crime.

By Associated Press to The Tribune.

FINDLAY, O., Aug. 6.—Amos Decker, the boy murderer, in realty gave himself up of his own free will." He says he ran the first night to Bluffton, sixteen miles away where he lay in a cornfield until dark. Then he went to the town to get something to eat and was told by a friend that his victim, George Mills, was dead.

He immediately determined to return and give himself up. After getting a hasty lunch he left Bluffton and ran towards Findlay for eight miles. He volver to scare Mills not to shoot and ran barefooted.

When half way home he met two acquaintances in a buggy, who agreed to take him to the jail and avoid any possible mob. He claims he fired the revolver to scare Mills not to shoot him.

The Mayor has released Decker's father and three brothers who were held as accomplices. This action has so enraged the residents of West Park, where all the parties live, that they threaten to lynch the whole family, unless they are again placed under arrest.

THE FIGHT WELL ON.

Political Meetings Are Being Announced on Every Side.

REPUBLICANS ARE ACTIVE.

The McKinley Wave Is Just Spreading Over the County.

CONFERENCES ARE CALLED.

Democrats and Populists Not Working Very Well Together.

The Army and Navy League meets tonight and will formally open its new headquarters, 474-476 Eighth street.

A mass meeting of East Oakland Republicans will be held Friday evening under the auspices of the Seventh Ward Republican Club.

Saturday night the Macdonough Theater will be the scene of the opening of the McKinley campaign in Alameda County. Elaborate preparations have been made for the affair by the Alliance Club.

The Young Men's Republican League meets tomorrow night at 474-476 Eighth street, where it will listen to able addresses.

An important meeting of the Fifth Ward Republican Club will be held tomorrow evening at 8 o'clock in Elite Hall.

The Executive Committee of the Alameda City Republican Clubs will assemble tomorrow night and name primary election officers.

The West Berkeley People's Party Club meets tonight in its rooms on University avenue, Berkeley.

Next Tuesday evening the West Oakland Populists will ratify.

Saturday evening Germania Hall will be the scene of a Populist county ratification meeting.

League of Young Republicans.

The Young Men's Republican League is taking an active interest in the Congressional campaign. Tomorrow evening it will meet in the new headquarters of the Army and Navy League, 474-476 Eighth street, when addresses are expected to be made by Judge Frick and Hon S. G. Hilborn.

After the speeches important business regarding the drill corps will be transacted. It is expected to turn out 100 men in line, neatly uniformed, and the selection of officers will be the next step necessary.

To Chose Election Officers.

The Executive Committee of the Alameda City Republican Club will hold an important meeting tomorrow evening in Tucker's Hall, Alameda, at which the selection of election officers for the Congressional primary will be made. It is the intention to make the selections from the three Republican Clubs—the Alameda, Veteran and Regular.

West Berkeley Republicans.

The West Berkeley Republican Club held a large meeting last night in the club rooms on University avenue and Fifth street, Berkeley.

Several good speakers were in attendance and McKinley and protection was the subject for interesting talk.

The Congressional Race.

Now that the Republicans have named their candidates for Congressional nomination, the action of the Populists and Democrats is being looked forward to. The possibility of a fusion of the two parties with some silver aid, is anticipated.

During the meeting of the Third District Convention of the People's party at Sacramento, the selection of a Congressional nominee was postponed by a divided vote. At that time Vann of Colusa, and Bretz and Gibson of Alameda were named as aspirants. The Bretz people tried to force the issue, but by their failure demonstrated the fact that their man has no show in the race.

Now the names for consideration are Gibson, Green Majors and probably Burdette Cornell.

The Democrats, assembling in District Convention, also postpone selections until after the National Conventions. The talk at the time was for Seth Mann, favored by the Fitzgerald wing; Attorney Thomas Garrity, a favorite with both sides, and Warren English, the Laymance candidate. Since that time the names of two strong possible candidates have been put forward. These are F. J. Moffitt and M. Tarpey. Henry McPike is also in the race in the Free Silver interests.

The Middle-of-the-Road Populists have declared they will have an individual candidate in case their brethren decide to fuse with Democracy on the issue. Already steps are being taken to bring about a satisfactory consolidation, but the hitch so far is that each party desires its man to receive united support.

The situation is somewhat complicated and may result in each ticket having its own candidate.

Sewall Not Wanted.

The State Executive Committee of the People's party, after an exhaustive secret session in San Francisco yesterday, has declared firmly for Watson and will now take steps to inaugurate his campaign in California. The suggestion of a withdrawal in favor of Sewall was not considered.

For Silver and Bryan.

The formation of the Fruitvale Silver League recently was the cue for several other similar organizations springing into existence. The latest of these is the Bryan Free Silver Veteran League in Central Oakland.

As yet no permanent organization has been effected, but a meeting will be held in a few days. Already about fifty signatures have been appended to the following preamble:

"We the undersigned, veterans of the late civil war, do hereby form ourselves into an organization to be known as the Bryan Free Silver Veteran League, and pledge ourselves each to the other that we will exert ourselves in every honorable way to secure the election of W. J. Bryan as President of these United States and the enactment by Congress of a law for the free and unlimited coinage of both gold and silver at the ratio of 16 to 1."

Among the names which head the list are: Dr. E. H. Woolsey, Calvin B. White, C. N. Hitchcock, J. B. McMath, E. M. Cannon, J. K. Peirsol, J. W. Dutton, E. M. Gibson and A. J. Gregg.

Seventh Ward Republicans.

The Seventh Ward Populist Club held an interesting meeting last night in the offices of Dr. Childs, Twelfth street and Thirteenth avenue, at which it was decided to participate in the ratification meeting to be held Saturday night in Germania Hall.

Populist Ratification.

At the ratification meeting of the People's party at Germania Hall on Saturday evening the speakers will be: Thomas V. Cator of San Francisco, Green Majors, C. B. White, Ed Maguire, O. M. Sanford, J. C. Buttner, A. A. Bretz, and J. P. Garlick.

J. M. Moore, county chairman, will preside and the committee of arrangements consists of A. A. Denison, R. B. Meyers, and J. C. Buttner.

Prior to the meeting a street parade headed by the Zouave League seventy-five strong will be held.

For Bryan and Watson.

On August 11th the West Oakland People's Party Club will hold a campaign rally at its headquarters, 857 Wood street. Burdett Cornell and Green Majors will address the gathering and the Zouave League will be out in force.

The Hilborn Forces.

The Hilborn forces congregated in several of the Wards last night to formulate plans for the campaign. Meetings were held in the First, Second, Fourth and Fifth Wards and in Oakland Township. Mr. Hilborn visited several of the gatherings which were more of a private character than club meetings.

Later on meetings will be held in the other districts and a definite line of action determined, though nothing of consequence beyond making selections of primary officers will be done before the next meeting of the County Central Committee.

Lake County Primary.

At a meeting of the Lake County Central Committee last night a call for primaries was issued to elect delegates to a County Convention to be held on August 18th. The County Convention will name delegates to the Congressional Assembly and Senatorial Conventions.

A SILVER STORY.

The Disastrous Effects of Its Circulation in Mexico.

Mexico has been a silver-standard country for four centuries, and it is now on a silver-specie basis. Ten banks issue notes—$28,427,000 in all. The specie (silver) reserve to pay them is $30,500,000. There are $15,000,000 in silver dollars in circulation, and the country has about $55,000,000 of money in use, counting in gold and subsidiary silver. The population is 12,100,000—$4.50 per capita. There are no Government notes. Mexico's eleven mints have coined $3,321,000,000, but it has been exported as fast as it was coined, as bullion, to pay for imports at its commercial price as bullion. A Mexican dollar in our silver coinage is worth $1.094. It contains 406.39 grains of fine silver, while ours has 371.25. The Mexican silver dollar is worth in gold in Mexico exactly 58 cents when silver is worth 65 cents per ounce as bullion, and 63 cents for a legal tender—5 cents being the cost of coinage. It fluctuates from day to day as bar silver fluctuates on London. It has no other fiat value in Mexico. If free coined the 5 cents would be deducted and the dollar would only be worth its silver bullion value.

The cost of living in the City of Mexico is about one-fourth more than it is in San Francisco—in Mexican money. Hotel rates are $5 per day. Cabs cost $1.50 per hour. Street-car fares are 6¼ cents. Rents are higher than in New York city; board is dearer; restaurant meals cost more.

Flour costs 5½ cents, sugar, 10 cents; beef, 6½ cents; pork, 8½ cents; coffee, 24 cents, tea (cheapest), $1; cheese, 25 cents. All staples imported cost gold prices in addition to duties.

The price of labor is very low in Mexico. The street-car companies pay conductors, drivers, and collectors from 50 cents to $1 per day. The highest wage paid blacksmiths is $2.50; bookbinders, $1; carpenters, $1.50; engine drivers, $1.50, harness makers, hatters, locksmiths, silversmiths, plumbers and turners, $1; machinists, $1.75; brick layers, stone cutters, house painters, $1.25. Many work for half these rates.

A craftsman in Mexico receives practically one half American wages, and his living in the same way as here costs much more.

Laborers are paid from 37½ cents to 50 cents per day in this Mexican silver money. They live at less expense than a farm horse in California.—San Francisco Bulletin.

SAYS "HE IS A LIAR."

Commissioner Wilson Uses Strong Language About the Mayor.

Politics Are Sizzling in a Lively Manner at the City Hall.

"He is a liar."

So said City Engineer Wilson with fire in his eye when the Mayor's name was mentioned to him this morning. For not only is Davie wrathy, but Wilson's soul is full to overflowing.

This municipal war is all caused by Wilson's resolution directing the firemen and policemen not to use their position to assist any political aspirant.

"The sole object of my resolution was to assure the men that I had no political ax to grind," said Wilson. "There were several of the firemen who have called upon me asking what they should do in regard to certain political matters. Politicians have also interviewed me asking me to pull the department vote for them. Now my idea is to keep the fire and police departments from becoming political machines. That is why I introduced the resolution. The rules provide the same thing, but I wanted to recall them to the minds of the men.

"The Mayor is a liar. I never as long as I have been in office requested or instructed any fireman or policeman for whom I have voted to assist me and I have no workers in the department. Anyhow my resolution was not meant for the municipal election, but for the one coming this year. I expect to be a candidate for re-election. I do not know what Peirsol's aspirations are, but I never, nor did he to my knowledge, appoint any one to the fire or police department pledged. Whether Davie ever demanded a trial for a policeman or fireman accused by their officers of violating the rules is best shown by the records of the commission where it appears repeatedly that he refused to sit and listen to the cases."

JUSTICE POTTER.

A Leading Jurist of Wyoming Is on a Visit Here.

Charles N. Potter of Cheyenne, Wyoming, a member of the Supreme Bench of that State, with his wife, is visiting Mr. and Mrs. Joseph Ireland, 644 Pacific avenue, Alameda, and paid a visit this morning to the office of County Clerk Jordan.

Judge Potter has been on the Supreme Bench for the past two years, and is a gentleman of exceeding geniality and a jurist of ability.

He has been on the coast since the nominations for the Presidency were made, and is therefor, he says, not competent to detail what effect they will have upon the people of his State. When he left Wyoming, he said, there was quite a free silver sentiment there, though the feeling was not so radical as it was in Colorado, Montana or Idaho. Harrison for President, he said, carried the State by 800, and at the last Presidential campaign there had been no Cleveland electoral ticket, the Democrats and Populists uniting in favor of Weaver. Two years ago there had been a Republican majority in the State, the majorities ranging from 2,400 to 5,000. He believed, he said, that McKinley will carry the State, although a candidate for Congress favorable to free silver will be nominated. He was under the impression that the Republican party in the State will support McKinley, although there were many people there who were not in favor of some of the principles in the St. Louis platform. A good many Democrats, too, he thought, would vote for McKinley.

As to the right of suffrage which women enjoy in Wyoming, Judge Potter says that there is very little difference in the percentage of men and women who vote. Fully nine-tenths of the women who are eligible to vote avail themselves of the privilege. They must have the same qualifications as male citizens, among them of course being that of education. The judge looks upon female suffrage as a benefit to the State. Back there, the people can see, he said, nothing disagreeable in the practice. He had had twenty years experience with female suffrage and believed in it thoroughly. Women, he said, were quite independent in their political views. They were less likely to be partisan in politics than men, though some of them were among the strongest partisans. As to the division in political sentiment between husband and wife instances were comparatively few in which husband and wife belonged to different parties and voted different tickets, though he knew of instances where such was the case and he supposed there were many other instances of the same kind. The fact that wives voted as their husbands voted did not, he said, argue that they were coerced, but that they harmonized with their husbands because of conviction and the idea of unity which married people are expected to maintain on many other matters.

As to the traffic in female voting, he said that in certain localities there is in a slight degree traffic in woman's votes, but it is not so extensive as is that in male votes. In fact, there was comparatively little of that kind of work done, because under the law it was difficult to traffic in votes. Besides, Wyoming is a place of small communities and in them every citizen nearly is known to every other person.

PROSTRATED BY HEAT.

A Red Hot Wave Sweeps Over Wisconsin and Northern Michigan.

By Associated Press to The Tribune.

MILWAUKEE, Aug. 6—Dispatches from all cities in Wisconsin and Northern Michigan tell of extreme heat, followed at several points by severe wind and thunder storms.

The temperature ranged from 96 to 102 degrees.

At Racine A. Perkson, aged 66, was prostrated and died. Mrs. J. Ramsey was also prostrated and is in a critical condition.

Two persons were overcome in Milwaukee, but there were no deaths. In this city outdoor work was largely suspended and at Martinette the intense heat caused the closing of many factories.

The storm last night was severe in Northern Wisconsin and in Northern Michigan. At Escanaba the Chicago and Northwestern viaduct, 400 feet long, was demolished. Damage to buildings and crops is reported at many other points.

JORDAN'S CLEVER WORK.

He Has Got the Register in First-Class Shape.

Little Trouble Anticipated in Getting the Special Copies.

There will be two editions of the Great Register prepared this year. One will be got out at the expense of the county and the other will be prepared specially for the forthcoming Republican primaries which will be held in this county on the 15th inst.

While there will be ample time to print the Great Register when is to be gotten out by the county only a few days are available in which to do the work on the special edition.

This work will be done under the supervision of County Clerk Jordan and this fact is an assurance that it will be done satisfactorily and in an expeditious manner. The cost of the special Register will be borne by the Republicans of the county.

Mr. Jordan's original idea was to have the names of all those who have registered copied with pen and ink and for this purpose he proposed to employ 121 copyists each of whom was to copy the names of all those registered in one voting precinct in the county. He, however, has abandoned this idea, and, in accordance with an understanding which he has had with representatives of both wings of the Republican party, in the county, he will copy with typewriters the names of the parties registered.

The work will be done in a most careful and expeditious manner, which will be possible because of the excellent condition in which the registration feature of the County Clerk's office has been maintained up to the present time.

Mr. Jordan has carefully filed away in an individual file the registration blank of every man registered. This filing is done according to precincts so that it is possible to make a copy with comparative ease. In these files not only the names of the voters appear but the names are also alphabetically arranged even with respect to the first three or four letters of the surname. The advantage of this classification and arrangement will be the saving of time which would otherwise be wasted in searching for names less carefully arranged.

To the names on these files now will be added the names of those who register between this date and the time for the closing of the lists which will be next Monday night at 12 o'clock. On Tuesday morning Mr. Jordan will get his force of copyists to work. He expects to give employment to about a dozen typewriters and they will be as expert as can be employed. The names and descriptive matter will be dictated to them by the deputies employed in his office because it is believed that the work can be done quicker in that manner than it could be by having the typewriters do their own reading.

It is not intended to copy the full description of each registered name because that would involve a great deal of unnecessary labor. The information which the special register will give will be the name of the voter, place of birth, his age, occupation, height, complexion, color of the eyes and hair and local residence.

It is believed that no more information than is contained in the foregoing will be required.

While this new register will cause a great deal of extra labor to devolve upon County Clerk Jordan, he is willing to undertake the task for the purpose of accomodating the public and at the same time of showing the care he has taken in the matter of preparing for the forthcoming Great Register of the county. He is also pleased to do the work because it will give hundreds of people an opportunity of knowing that their names are on the Great Register and if they should discover that they have made mistakes in registering, they will be able to correct the errors before the regular Great Register is completed.

Clerk Jordan will rush the work through and when he turns the registers over by precinct to the parties entitled to them each of the registers will bear his certificate as to its correctness.

WATER FRONT APPEALS.

The Cases Being Considered Today in the Supreme Court.

It Will Take Three Days' Hard Work to Submit the Arguments.

(Special to the Tribune.)

SAN FRANCISCO, Aug. 6—At last the Oakland water front cases have been opened in the Supreme Court. This afternoon was set aside for the consideration of the first appeal, but other business occupied so much time that it was not until late that the case was called.

Attorneys W. R. Davis, W. Lair Hill, E. J. Pringle and H. A. Powell are on hand to represent Oakland's interests, while Harvey Brown and the Southern Pacific Law Department appear for the Water Front Company.

Three days have been given to hearing the appeals and it is anticipated all the time will be fully occupied.

All told there are five cases to be heard, but the chief one is that of the City of Oakland vs. the Water Front Company, which is on appeal from the decision of Judge Ogden, when he gave the title in the main of the water front to the city.

In this case the Water Front Company asked for a change of venue and upon its denial appealed.

The State also has a case against the city and seventy defendants in which the Attorney General seeks to establish the State's title to the disputed territory. J. P. Dameron is involved in an action against the Water Front Company, and upon the other appeal hangs the title to the territory about Oakland's harbor.

THE POUNDMASTER SERENADED.

A Canine Song Which Was Sung Beneath His Bedroom Window.

The police think they have a good joke on Poundmaster Horton. For some time past a number of people on the water front have been complaining of a mongrel hound that makes night hideous with its howls. Horton has been asked several times to capture the canine nuisance, but has never been able to get his net on the four footed disturber of the peace. On Sunday night some of the water fronters thought they would have some fun at Horton's expense, and so they captured the hound. They then tied a rope about its neck, and led the howler to Horton's place when the Poundmaster and his family had retired. Slipping into Horton's yard, they tied the animal beneath his window and then made tracks for the water front again. Soon the hound took up its regular nightly wail, and Horton started in his sleep. He thought it was the dog of a near neighbor, and resolved to have his net over its head bright and early in the morning. As the night wore on the Poundmaster tossed uneasily in his bed while the hound talked to the moon and set all the dogs in the neighborhood to barking and baying. Night was hideous for the neighborhood, and Horton firmly vowed he would have that neighbor's dog in the pound before breakfast. Bright and early he arose and went out to secure his butterfly net that the Society for the Prevention of Cruelty to Animals has induced him to use. When he saw the Levee street hound tied beneath his window he said several things too strong for publication.—Stockton Mail.

TOPICS FOR TEACHERS.

Consolidation of Elementary Certificates for the Future.

A HARDER EXAMINATION.

Failure of Some Efforts in Behalf of Rural Districts.

APPROPRIATIONS ARE ARGUED.

The Superintendents Will Attend a Flag Raising.

The morning session of the County Superintendents was given to discussing and voting upon amendments relative to country school districts and discussing the report of the Committee of seven appointed to reorganize the methods of certificating the teachers. This last subject was given to the Committee last evening and it remained in session up to midnight. It had not finished its work then and held another session from 9 until 11:30 o'clock this morning.

Superintendent Black called the Convention to order at 10 o'clock, but as he was one of the special committee, Vice President Kate Ames was called to the Chair.

The proposed amendment to allow $400 dollars for school districts having less than ten children, where they now get $20 for each child excited considerable discussion. The Superintendents from the country districts urged the adoption of the amendment while against it was argued that in many instances unscrupulous marshals included campers or any other children who might be in the vicinity. A case was reported where the mother of four children brought her family into a district which made enough to get $400 a year and the mother, as a recompense for moving was made the school teacher.

Other Superintendents believed and expressed themselves that a district with less than ten children was well enough provided at the present time.

Ex-State Superintendent Fred Campbell who was the drafter of the law allowing districts of less than five children to lapse explained how it happened. Under the old law a wise country female was making $75 a month teaching one child and that her own.

The amendment was lost on a vote of twelve to twelve.

Superintendent Brown of Humboldt moved to drop all districts where the daily average attendance fell below seven children instead of five as at present. Five, he said in arguing his motion, did not represent a school but merely a good sized country family. To apportion $400 a year to one family was a farcical use of the school money. The motion was lost.

Superintendent Sackett moved to add a section providing that in districts of more than two teachers the trustees should designate one of them to act as principal. The motion was carried unanimously.

A motion to have the County Superintendents grade the schools in May instead of July was carried.

At this stage of the proceedings the committee of seven came into the room. Superintendent Black before having the report read, produced an invitation for the convention to attend a flag-raising at the Central Grammar School. By a vote the invitation was accepted and the report was then read.

Its principal features are that it will do away with the primary and grammar grade certificates and in the future have but one certificate to be known as an elementary certificate. The examination for this will be somewhat harder than the one now taken for the grammar grade certificate. It will include the studies of arithmetic, grammar political geography, physical geography, composition, United States history, orthography, defining, word analysis, penmanship, reading, methods of teaching, school law, psychology, civil government, English and American literature, bookkeeping, vocal music, algebra, elementary physics, plane geometry, elementary botany and elementary zoology.

By a special provision certificates, be they primary, grammar or life, now existing will not be effected by the change.

The committee recommended granting a probationary elementary certificate for four years to graduates of the State University and State Normal Schools upon the recommendation of the faculty. If the holder proves successful as a teacher for this length of time Boards of Education may make the certificate life.

This is considered the most weighty matter before the Convention, and discussions were lively for the few minutes which remained before the noon hour.

At that time the matter was laid upon the table to be taken up this afternoon.

This afternoon the convention opened with a discussion upon receiving the report of the Committee of Seven.

Superintendents Garlick and McClymonds were among those who warmly advocated receiving the report without amendment.

Superintendent Kirk suggested having the report printed and sent to the Superintendents and for the Superintendents to confer with their several Boards of Education before mailing their votes to State Superintendent Black.

The suggestion did not meet with approval and the motion to adopt the report in full was adopted unanimously.

This is the last day of the convention.

OFFICERS ARE CHOSEN

The Christian Alliance Is Winding Up Its Session.

A LEGISLATIVE COMMITTEE.

Thirty-Two Named to Take Charge of the Work.

REPORTS OF THE DELEGATES.

An Increased Membership Over Last Year's Showing.

The third day's session of the Christian Alliance State Convention was a productive one. It opened this morning with a prayer meeting between the hours of 6 and 7 o'clock. This was conducted by Rev. Mr. Krahl.

A recess was taken until 9:30 o'clock, when devotional exercises were led by Rev. Storall.

The business of the convention occupied an hour, from 10 o'clock and during that period reports from the various branches throughout the State occupied attention. From all sections came word of prosperity and increase. It was conclusively shown that the Alliance has made rapid progress during the year and that its members were nearly doubled.

The election of a governing body for the following term next occupied attention. A committee was appointed to suggest names for a Legislative Committee which will take charge of the State work. When the report was presented its adoption was unanimous. The Legislative Committee consists of Rev. T. J. Arnold, Rev. L. W. Craven, W. W. Storall W. Perkins, Rev. A. Coplin, Mrs. Carrie Judd-Montgomery, W. P. Morrison, A. E. Kellogg, Mrs. A. Skelley Mrs. J. A. Remington, Rev. H. C. Waddel, Rev. J. H. Allen, Mrs. W. H. Harter, Mrs. C. Wilcox, Mrs. Mason, Mrs. A. B. Gore, Mrs. A. R. Cogswell, Mrs. J. T. Bell, Mrs. T. H. B. Anderson, Mrs. J. H. Glide, Mrs. Ed. Jones, Mrs. Dowdle, Mrs. Hollet, Mrs. Diss, Rev. T. H. Lawson, Mrs. J. T. Stratton, Mrs. Wakefield, Mrs. Stevenson, Mrs. Stevens, Mrs Woodward, M. Harmon and Charles Scott.

A Nominating Committee, which is empowered to make selections of the chief executors from among the members of the Legislative Committee, was also selected. The members are. Rev. H. C. Waddel, Mrs. A. Coplin, Rev. L. W. Krahl, Mrs. A. B. Gore, Mrs. A. R. Cogswell, Mrs. W. H. Harter, Rev. W. W. Storall and Mrs. Walter Perkins.

This committee will meet at 5 o'clock tonight and name the officers.

From 11 to 12 o'clock the Convention listened to a sermon by Rev. Mr. Flint on "The Four-Fold Gospel." This was an able discourse and dealt pertinently with questions of much interest to the Alliance.

The noon hour having approached, the delegates were again the guests of the ladies of the local branch and enjoyed an excellent dinner in the lecture room.

At 2 o'clock the work of the Convention was resumed with a devotional service conducted by Mrs. Skelly of San Francisco. Between 2:30 and 3:30 o'clock Rev. A. Kellogg delivered an address on "Spiritual Organization" and at half-past three Rev. H. C. Waddel was talking on the subject of the "Christian Alliance," explaining its objects and purposes.

A free conference will be held at the conclusion of Rev. Waddel's address, at which the various points of interest touching Alliance work will be discussed. This is to be conducted by Mrs. W. M. Harter.

Devotional services under the supervision of Rev. Mr. Fraser will open the evening's exercises and at 8 o'clock Rev. Mr. Carpenter of Santa Clara will deliver a discourse on "The Second Coming of the Lord." At 9 o'clock the usual altar services will be held, in charge of Rev. T. J. Arnold.

During the morning exercises the question of establishing an official organ for the Alliance work on the Pacific Coast was brought up for discussion. While all agreed that a journal was a necessity and that it would be a material aid, it was feared that not enough funds were on hand to successfully carry out the venture. Some believed that a trial should be made and the matter was taken under advisement.

Tomorrow's session will conclude the Convention.

REGRET AND RESPECT.

Resolutions Adopted Regarding the Death of Winnie.

The following resolutions have been adopted by the Builders' Exchange regarding the death of William Winnie:

"Whereas, William Winnie, our esteemed President, who has been an energetic and industrious worker for the promotion and furtherance of the best interest of our Exchange, has been removed from our midst by that grim destroyer death, under circumstances deplored by all who knew him; and

"Whereas, William Winnie was a man admired for his honesty of purpose and integrity, always affable, congenial and charitable, whose fault, if any, was too much confidence in his fellow man, who trusted without word many ways under which his proud spirit or bond, thereby experiencing a loss in it chafed; therefor be it

"Resolved, That in the loss of William Winnie, who has been our President for three consecutive terms, and who has always filled the chair with honor and credit to this Exchange as well as to himself, our organization is bereft of a useful and honored member and the community of a good citizen, and be it further

"Resolved, That we express our deepest sympathy for and condolence with his faithful wife and companion in life, who has stood so nobly by him; and be it further

"Resolved, That a copy of these resolutions be sent to the widow of the deceased, conveying to her our heartfelt sorrow in her hour of affliction; and be it further

"Resolved, That the charter of this Exchange be draped in mourning for the period of thirty days in honor of the memory of our departed friend and member.

THURSDAY.....AUGUST 6, 1896

It is reported that ex-President Harrison will be a candidate for the United States Senate. He would do good service there. John Quincy Adams did not think it beneath his dignity to serve several terms in the House. He died in Washington, with the harness on. Harrison in the Senate would be the most influential man in that body.

At the tenth annual convention of the American League of Building and Loan Societies in Philadelphia last week the Secretary reported that there were 6000 associations in the United States. Their assets are about $750,000,000 and the sum paid out annally reaches $75,000,000. What will the several million members of these, whose savings represent industry and self-denial, and which they have invested with the hops of securing a fair return from the investment or of building a home some day, think of the proposed change of standards with a resultant shift to the silver basis and a loss of 47 per cent of their holdings?

We have heard much about the "new woman." But here is an old fashioned woman with the push and energy to make things go The Chicago Tribune relates this incident: "Professor D. A. Kent of the State Agricultural College at Ames, who drained Lake Cairo of the water and paid this county $4000 for a quit claim deed to land which he brought into view, was on the eve of abandoning his farming project this week. The wet season has washed out the seed and completely discouraged him, says a Webster City, Iowa, correspondent. His wife who is prominent in society, came to her husband's rescue Early yesterday morning she commenced seeding an eighty-acre tract in millet and drove the team herself, finishing fifty acres before night. Today she is going on with the work and she declares if her husband has not the grit to save the 3,000 acres, she will do it herself."

Grain Bags and Legislation.

The last Legislature undertook to legislate in the interest of farmers in one particular at least It ordained that the jute grain bags made at San Quentin should not be sold to middle men, but should be sold in such quantities for actual use as farmers might need. The object was to prevent a corner or trust by which middle men controlling the bulk of the grain bags could run the prices up on the farmer.

For some reason, the grain growers are very slow to take advantage of this arrangement. The prison authorities report 2,000,000 unsold grain bags representing a cash value of $84,000 There is a large grain crop this year, and most of these bags will be needed in the fields. Farmers do not like to comply with the new method of sale Heretofore they have dealt with middle men, and while they have complained bitterly of the advance in prices, for some reason, they seem to like the old way of dealing with middle men the best.

It may be that in many instances some accommodation was extended to them in the way of credit. They could frequently buy the bags at country stores where the bulk of other trading was done, and pay when they had sold or borrowed money on their wheat in the ware house And so it turns out that the grain men are slow to buy their bags at first hands with all the advantages that are offered.

Decline of a Once Flourishing Business.

A few years ago about the most prosperous cattle business in the country was that of the rearing and sale of Jersey cattle. Many of these brought fancy prices. A cow would frequently sell for a thousand dollars. Then came a decline. The prices went down. Jersey cattle were sold for whatever they would bring, and the famous breeders went out of the business.

Within a year or two, there has been another cause of discouragement. It was found that tuberculosis prevailed to a greater extent among Jersey than among other cattle. In Massachusetts whole herds were destroyed in compliance with the law providing for the extirpation of the disease. The Jersey will survive. But the speculating days in this respect are over. Tuberculosis will decimate herds, but there will be enough left for ordinary demands.

For an Attractive Rural City.

Berkeley is in a fair way to become the most attractive city on the Pacific Coast. It has the advantage of great natural beauty of site. The second great advantage is a climate that is good all the year round. The outlook from the more elevated ground embraces a scene of surpassing beauty. If one looks from the Asylum grounds, or from the University grounds, he might well raise the question if he ever saw a foreground and background embracing so many attractive features?

There is still a very broad margin for future improvement in that little city. Twenty years ago or more, there was in active existence in Berkeley a town improvement association, which undertook to make rural improvements; the scope being chiefly confined to the planting of ornamental trees along the side walks, and to the cultivation of a rural taste in the line of public improvements. The association procured the planting of many trees. But after a while that organization fell into a state of "inocuous desuetude." Vagrant cows used the trees as scratching posts, and in time much of the good work that had been accomplished was undone.

Berkeley now sustains a Floral Society which with a little expansion could convert that town into a rural paradise. Professor Hilgard in an address before that society, on "Shade and Ornamental Trees," suggested a new system of tree planting which would secure many beautiful avenues in that town. He would have only one kind planted on a single street, but would have separate varities enough for all the streets of the town. The foolish ordinance which prohibits the growth of trees more than twenty-five feet high ought to be repealed at once Both in Berkeley and in Oakland there has been just cause of complaint that electrical companies have slashed the tops of ornamental trees in order to clear the way for wires. That is an abuse which ought not to be tolerated. Berkeley has entered upon its second stage of growth. It is about to add to the distinction of a university town the distinction of the handsomest residence city in the State.

The President's Appeal.

It is morally certain that within a few days President Cleveland will make a public declaration of his views touching party obligations in the present crisis. Before the date of the Chicago Convention he was reported as saying substantially, that if a free silver coinage candidate were nominated, so great would be the interests at stake that he would prefer voting for the Republican nominee than to vote for a candidate such as was likely to receive the nomination of one wing of the Democratic Party. That at least was a fair construction of his meaning.

There is no reason to suppose that the President has changed his mind since he made that deliverance. It is in the air that he will advise the sound money Democrats who are soon to meet in a National Convention to support the Republican ticket. There is now a prospect that thirty States will be represented in that convention. It is certain that a sound money platform will be framed, and one broad enough to include all the cardinal principles of the party. This having been done the only healthy Democratic organization in the country will have a National existence. It will be the rallying basis of all sound money Democrats who are opposed to National repudiation.

A platform having been framed, the next question will be as to a nomination. The views of President Cleveland will have great weight in the Convention. The main purpose is to defeat the Chicago Populist-Democratic ascendancy. That can be more effectively done by voting for the Republican nominee. The Democratic revolt has gone so far that no union can ever be made with the Bryan wing. President Cleveland is now in a position to make the election of the Chicago ticket well nigh impossible. His expected declaration is now awaited with eager interest.

The Republican platform pledges the party to purchase the Danish West Indies as a coaling station for the Navy. W. E. Curtis contributes to the Chicago Record some interesting facts about these islands. The original proposition considered by Secretary Seward provided for the acquisition of the Danish possessions in America, consisting of the three islands, St. John, St. Thomas and Santa Cruz. The price agreed upon was $11,250,000, less than one-half of what Denmark asked originally. St John and St. Thomas present advantages for fortification, but Santa Cruz, which is superior as an agricultural district, is without such advantages. Seward's final proposition was to buy only St. John and St. Thomas, for which he offered $7,500,000, and this was accepted. It was stipulated by Denmark that the consent of the inhabitants of the islands must be obtained. St. Thomas voted on it January 9, 1868, there being 1039 votes for annexation and 22 against. The following day the vote was taken in St. John, and it resulted in 205 votes in favor and none against. Then the Danish Rigsdag ratified the treaty, but this fell through because of the unwillingness of the United States Senate to concur.

Contrary to the generally accepted theory there are still bands of buffalo running wild in this country. A San Antonio paper makes this statement: "Several weeks ago Dr. J. B. Taylor, the wealthy Texan stockman, sent three experienced cowboys and frontiersmen in search of the herd of wild buffalo which was discovered in Brewster county two years ago, and has been seen several times since then. The hunters have just returned from their trip, which they state, was a success. They found the herd of Buffalo, numbering about eighty head, in a remote section of Presidio county. The animals were trailed by the hunters from the Carmen mountains in Mexico. Now that the exact location is again known, it is Dr. Taylor's intention to start with his expedition, which has been organized for several months, and round up the animals and place them all on his ranch in Tom Green county.

We confess to having a great interest in any new motor for the improvement of street railway transportation. For that reason we have followed closely all the accounts of compressed air as a motor. The World makes this declaration: "There is no longer any reason to doubt the success of the application of compressed air as a motive power for street traction. As a practical and mechanical achievement its possibilities have been amply demonstrated by experiment, and it only remains to be proved that it is economically satisfactory. It is to be hoped that this is the case. The question is one of greater interest to New York than to any other city, for the reason that this is the only city in which the change from horse power for street traction yet remains in great part to be made."

Silver in Mexico.

Mexico is frequently cited as an example of the prosperity of a country on a silver basis. It is well to look into facts The World recently condensed some pertinent facts in a short silver catechism. They completely overturn the theory that Mexico is a prosperous country because of its silver basis:

Q. Mexico has been a silver-standard country for four centuries. What is its present monetary condition? A. It is on a silver specie basis. Ten banks issue notes—$28,427,000 in all. The specie (silver) reserve to pay them is $20,500,000. There is $15,000,000 in silver dollars in circulation, and the country has about $55,000,000 of money in use counting in gold and subsidiary silver. The population is 12,100,000—$4.50 per capita. There are no Government notes.

Q. What has become of the $3,321,000,000 coined by the eleven mints? A. It has been exported as fast as it was coined, as bullion, to pay for imports, at its commercial price as bullion.

Q. What is a Mexican dollar equal to in our silver coinage? A. $1.04. It contains 406.39 grains of fine silver; ours 371.25.

Q. What is it worth in Mexico in gold? A. Exactly 58 cents when silver is worth 68 cents for a legal tender—five cents being the cost of coinage. It fluctuates from day to day as bar silver in London.

Q. Then a Mexican silver dollar is worth no more in Mexico than it is anywhere else in the world—its market price as bullion? A. Yes, five cents—the cost of coinage. It has no other fiat value in Mexico.

Q. Then its practical "free and unlimited coinage" adds nothing to its value? A. Only the legal-tender fiat value in Mexico of five cents over the bullion value. If free coined this would disappear and it would only be worth in Mexico its weight in silver.

Q. What is the cost of living in the City of Mexico? A. About one-fourth more than in New York City—in Mexican money. Hotel rates are $5 per day. Cabs cost $1.50 per hour. Street-car fares are 6¼ cents. Rents are higher than in New York City; board is dearer; restaurant meals cost more.

Q. What is the cost of food? A. Flour, 5½ cents; sugar, 19 cents; beef, 6½ cents; pork, 8½ cents; coffee, 24 cents; tea, (cheapest) $1; cheese, 25 cents. All staples imported cost gold prices in addition to duties.

Q How much of this Mexican silver money can a man earn? A. The street car companies pay conductors, drivers, and collectors from 50 cents to $1 per day. The highest wage paid blacksmiths is $2.50; bookbinders, $1; carpenters, $1.50; engine-drivers, $1.50; harness makers, halters, locksmiths, silversmiths, plumbers and turners, $1; machinists, $1.75; bricklayers, stone cutters, house painters, $1.25. Many work for half these rates.

Q Then the cost of living is much higher and wages of craftsmen much lower than with us? A. Decidedly. A craftsman in Mexico receives practically one-half American wages, and his living in the same way as here costs much more.

Q. How is it with laborers? A. They get from 37½ to 50 cents per day in this Mexican silver money.

Q. And how do they live? A. "At less expense than a farm horse in New England," and not so well, John Bigelow once remarked. "The laboring classes," says a Mexican newspaper, "regard themselves as a plant, which moves by extraneous aids only, and has no power of volition, and no desire to exercise it if he had."

The London Truth advocates a sound system of taxation with a pointed illustration. Every one ought to be allowed to accumulate during his lifetime what he pleases, but when he dies there ought to be a maximum that he may leave to relatives or friends, all in excess of this going to the State. Take, for instance, Mr. Astor. It is said that he possesses about fifty million pounds. Evidently he cannot spend the interest of this amount. In a given number of years, therefore, if this money from generation to generation remains in the hands of one single individual, it will become five hundred millions. Neither the individual nor the community will benefit by this. Therefore, I would meet it by handing into the public treasury most of Mr. Astor's fifty millions on his death. How would this harm him? He would have ceased to exist. If the State took 99 per cent of his money on his death, he would still have five hundred thousand pounds to dispose of, and on this sum his heirs or his heir might rub along comfortably." Mr. Astor now has the floor.

AFTER A DIP IN THE SEA.

Robes Which Fleck the Landscape With Patches of Color.

Every girl must be an artist if she would be successful. I don't mean that she must paint, but that she must see with an artist's eye. When a picture is painted, would an artist put in a figure that did not harmonize with the background surrounding it? Yet how often do we don a gown, thinking nothing of the green trees under which we shall stand, or the blue room that will put a gloomy cast upon our countenances.

Perhaps this idea ran through the minds of the French women who first wore the gaudily colored robes which bathers are now winding around them for their run across the sands These robes are rich in eastern coloring, and are wonderfully effective against the green of the sea and the shining sands. Many of the robes are fashioned in mantles. One in particular of a vivid red material, striped with blue and golden brown, has quaint draperies over the arm, and a high ruche about the neck.

When worn with sandals and a knotted cap of crimson silk, one might easily imagine that Cleopatra were walking across the sands, in all the beauty of her country's gowning.

Aiding the Criminals.

Deputy Sheriff Lane has a two weeks job before him in connection with his other duties in the County Jail. He is making a report of the inmates and the charges against the inmates of the jail for the year 1895. He is making duplicates of the reports for the New York and San Francisco offices of the Salvation Army. The request for this report has come coupled with the explanation on the part of the social Secretary that it is the intention of the Army to work to help prisoners from the time they are arested until their career as criminals is ended either by death or by return to respectability.

SPAIN IS SCARED.

The Cuban Insurgents Are Stirring Up Interior Riots.

GENERAL ALARM IS FELT.

Efforts to Prevent Further Reinforcements of Troops.

THE SITUATION IS SERIOUS.

Enormous Expenses Created by the Present Revolt.

By Associated Press to The Tribune.
(Copyright 1896 by Associated Press.)

MADRID, Aug. 6.—Trouble of a serious nature is being fomented in Spain, particularly in the province of Valencia, by agents of the Cuban insurgents.

The Minister of the Interior, Senor Cos-Gayon, yesterday, replying to a question in the Chamber of Deputies, admitted that riots occurred in Valencia, caused by friends of the Cuban insurgents, who hoped thereby to prevent the departure of reinforcements of troops for Cuba.

Hitherto the popular demonstrations have been attributed entirely to protests against the imposition of new taxes, made necessary by the financial strain the Government has been subjected to through carrying on a campaign aginst the insurgents in Cuba, but while the Government is only willing to admit the riots had been instigated by agents of the Cuban revolutionists, it is generally admitted the roots of the trouble are much deeper, and that it is being nourished by the natural feeling of alarm and dismay at the apparent utter inability of the Government to cope with the situation in Cuba.

A NEW POINT.

Deputy County Clerks Cannot Become Election Officials.

County Clerk Jordan is making inquiry into the matter as to whether or not the deputies whom he has appointed in various parts of the county to aid in the work of registering citizens are eligible to act as precinct officers at the forthcoming election.

As it now stands he considers those deputies county officers although they receive no remuneration. As officers, he feels they are not eligible to hold places on the boards in question. In this respect Mr. Jordan's opinion is shared by George W. Reed to whom he has spoken on the subject.

Mr. Jordan intends to confer with District Attorney Snook on the subject and if Mr. Snook's opinion agrees with his Mr. Jordan will then revoke the commission which he has given to those men to act as his deputies, because he does not want to prevent them from serving as election officers where their inclination suggests and their neighbors demand their services.

Of course all of the deputies in question do not desire to become precinct officers. Those who do not wish to serve in that capacity will continue to act as deputy clerks. Where deputies desire to officiate at the polls, Mr. Jordan will appoint others who have not that aspiration, to act in the matter of registration in their stead, or failing in that, he will announce that people living in those localities where deputies do not reside will be required to come to his office in this city to register.

The Police Shoot.

Policeman Cockenton won the monthly police shoot at Shell Mound Park yesterday with a score of 43 out of a possible 50. The other officers scored as follows: Swain, 43; Clark, 43; Andrews, 42; William, 42; Schoeder, 43; Kingsbury, 42; McCarty, 43; Arnest, 42; Sill, 42; Moore, 42; Henderson, 40; Stahl, 39; Keefe, 39; Leyton, 37; Powers, 36; Jacobus, 33; Captain Wilson, 38; Ely, 27; Nedderman, 27; Quigley, 32; McKeegan, 34; McCloy, 23; Green, 19; Woods, 8; Murry, 29; Murphy, 24.

A SOCIAL STAR SETS.

Death of Mrs. Hicks-Lord, One of New York's Leaders.

SHE ENTERTAINED LAVISHLY.

Fortune Showered Her With Gifts Throughout Her Career.

HER WEALTHY ALLIANCES.

She Cut a Big Figure Both Here and In Europe.

By Associated Press to The Tribune.

NEW YORK, Aug. 6.—Mrs. Annette Hicks-Lord, who was in her day one of the most notable figures of New York society, died last night aged 67 years.

Mrs. Hicks-Lord was descended on her mother's side from a titled English family and was related to General Robert Schenecke, once United States Minister to Great Britain.

Her father, Unicio Peter Wilkins, married Adeline Schenecke, whose family had a great deal of property on the Fishkill River.

The couple went to Guiana where Annette was born. Subsequently the Wilkins family returned to this State, making their home at Mattewan.

Annette at 25 was married to Thomas Hicks, a wealthy merchant of twice as many years as her own. Her marriage settlement included considerable property at Toledo, Ohio, which when Hicks failed a few years later, gave his wife income sufficient for the maintenance of both until the husband died.

The widow's fortune was increased by an inheritance from relatives in Holland, so she was able to entertain most lavishly; her receptions being among the most noteworthy of the period in New York.

Then Mrs. Hicks went to England and as a relative of the United States minister was presented to Queen Victoria. She set up an establishment in London which was as celebrated in its way as had been her city New York home.

After Mrs. Hicks returned to America, Thomas Lord, the octogenarian dry-goods merchant, with a fortune of $6,000,000, paid suit to her. In 1877 they were married.

The six children of Mr. Lord sought to have the marriage set aside on the ground of mental incapacity of Lord.

The couple, however so completely secluded themselves in the wife's home on Fourteenth street, that for months detectives were unable to reach him.

The fight was finally abandoned. A year later Lord died.

After the porper season of mourning the widow re-entered society, her entertainments taking on even greater magnificence than those of her earlier career.

Recently her health failed and she travelled extensively. She also devoted much of her thoughts and money to religion.

A few years ago her fortune was estimated at $3,000,000 not taking into account her magnificent collections of plate, cameos and rubies.

AS OTHERS SEE US.

Oakland's Police and Fire Commissioners have ordered the men in the two departments to keep their hands off of politics. That was a sensible move. Of course it is not intended to abridge any of their rights, but to keep them from turning politicians, to the neglect of their duties during the campaign.—Alameda Argus.

Oakland has begun a grand Exposition. Nearly every city in the State has had its floral festival and a great big struggle electing a queen. Vallejo is behind. Why can we not have a little civil war over the question as to who shall be Queen of the May? It might not be a great affair, but it would stir up interest and set a few more dollars flying. The livelier the money moves, the more chance of getting some of it, and the less reason for such fads as free coinage and free trade.—Vallejo Chronicle.

Children Cry for Pitcher's Castoria.

MAY RUN FOR A MONTH.

Proposition to Extend the Time for Closing the Exposition.

A BIG BENEFIT TODAY.

The Associated Charities Will Reap the Financial Benefits.

MORE ATTRACTIONS ARRANGED.

Alameda County Can Be Well Proud of Her Fair.

The Associated Charities held its wood yard benefit today at the Oakland Exposition, and the large crowds in attendance testified not only to the Exposition's success, but also to the popularity of the charity organization. Probably several hundreds of dollars will be turned over to the Charities from the gate receipts this afternoon and evening.

The committee in charge of the day's arrangements and programme, Mrs. Paul Lohse, D. Edward Collins and Dr. E. S. Chapman, prepared an entertainment both interesting and popular.

The feature of the afternoon was the singing of patriotic songs by over a hundred little children from the West Oakland Home. The programme in full was as follows:

March .... Exposition Band
Overture .... Exposition Band
"Star Spangled Banner" ....
One hundred children from the West Oakland Home (with flags).
Selection .... Exposition Band
Statement of the object of the day.
Patrol .... Exposition Band
"Our Hero, Washington" ....
One hundred children from the West Oakland Home.
Gavotte .... Exposition Band

The programme for the evening will be especially interesting, as the work of the Associated Charities will be discussed by able speakers. Rev. E. S. Chapman will speak on the benefits to be derived from the wood yard, and Mayor Davie will advocate the adoption of the Pingree system by the people of Oakland, which would utilize the unimproved grounds and give work to the unemployed. As Mr. Davie has been in communication with Mayor Pingree of Detroit, who established the system, he will probably be able to give some interesting facts in connection with the operation of the plan.

The Associated Charities has decided to adopt the Pingree system of work if the ground is granted them and the tools and seeds are supplied.

An attractive feature of the evening's programme will be the singing by the Temple Quartette and the mandolin playing of the Misses Sherwood. All of the musicians are extremely popular, and are generally greeted with large audiences.

TONIGHT'S PROGRAMME.

The programme has been arranged as follows:

March .... Exposition Band
Overture .... Exposition Band
"Where Would I Be?" .... Zollner
Temple Quartette.
Benj. Clark, first tenor; E. E. Brangs, second tenor; Harry A. Melvin, first bass; George A. Carleton, second bass
Fantasie .... Exposition Band
Guitar and mandolin duet, "Martha"... .... Flotow
The Misses Theresa and Lily Sherwood.
"Monastery Bells" .... Exposition Band
Address, "The Pingree Movement"..... .... Mayor John L. Davie
Patrol .... Exposition Band
"Absence" .... Dudley Buck
Temple Quartette.
Guitar and mandolin duet, "Southern Melodies" (by request) ....
The Misses Theresa and Lily Sherwood.
Medley .... Exposition Band
Address, "The Associated Charities Wood Yard"........ Rev. E. S. Chapman
(President of the Associated Charities.)
"The Two Roses" .... Vogel
Temple Quartette.
Selection .... Exposition Band

At the Associated Charities Booth the following ladies are receiving: Mrs. C. H. Redington, Mrs. S. C. Borland, Mrs. Helen Kelly, Mrs. E. S. Chapman and others.

At the Suffrage Booth the following Berkeley ladies are receiving: Mrs. Geo. Haight, Mrs. William Keith and Mrs. Carlyle.

The Political Equality Club will tender a reception to the Press Association Friday evening.

Miss Susan B. Anthony will receive with the ladies one day, probably Friday or Monday, although the day has not been definitely settled.

The Press Association is making elaborate preparations for its day next Friday afternoon, when papers will be read by Joaquin Miller, Miss Ina Coolbrith, C. E. Markham and others. The committee in charge consists of Mrs. Emma Marshall and Mrs. Florence Miller.

Other special features of the Exposition will be the singing of the Black Patti, Friday afternoon; the Colored People's Day, August 12th, and the special days for towns throughout the county—Berkeley, August 11th; Haywards, August 10th; Alameda, August 13th, and Contra Costa County Day, August 15th. The Native Sons will also celebrate the evening of August 15th.

BABIES' DAY.

Another special day which is attracting attention is "Babies' Day," Monday afternoon, when prizes will be awarded to little tots under two years of age who can pronounce most clearly the words "Alameda County Industrial Exposition." As three young bachelors were judges last year, it is probable that three young benedicts will be selected this year, and Mr. Wilson and Mr. Edson Adams will be invited to act and given the power to select the third judge.

A few striking changes have been made in some of the booths, noticeably the Tribune's attractive exhibit, which is now illuminated with twenty incandescent lights, making it one of the brightest spots in the exhibition.

Back of the Tribune booth the Alameda Argus has placed the finishing touches to an attractive booth in red and white, comfortably furnished as a sitting room and containing files of the Alameda paper.

A SURE SUCCESS.

The Directors of the Exposition are enthusiastic over the success of the exposition and although it has not been definitely decided upon it is generally understood to be their wish to continue the Exposition two weeks longer than originally intended. The crowds which have constantly increased during the past few days, warrant the continuance and the Directors will hold a meeting soon and definitely decide whether to close the Exposition on scheduled time or continue it one or two weeks longer.

"While it may not be any greater success from a financial standpoint than last year's Exposition," said M. J. Keller, a member of the directors today, "it is certainly drawing crowds and as the people want to have it continued longer and the concessionaires want it, we probably will follow out their wishes. What pleases the people pleases us. The crowds are constantly increasing and many people are taking advantage of the season tickets to visit the exhibition every day. Personally I am in favor of its continuing for at least another week."

Superintendent Cragie Sharpe declares that the Exposition should continue for two weeks longer than at first decided upon and says that it would still pay.

"We are having favorable weather and the crowds are constantly increasing," he said. "Our expenses are larger this year but the attendance is also larger. We made it pay last year for a month and we certainly can be as successful this year."

As the majority of the directors feel the same about the Exposition, it is almost an assured fact that the Exposition will not close until two weeks after scheduled time.

BLAMING THE MACHINE.

The Mechanical Calculator Said to Have Made a Mistake.

Even adding machines will make mistakes. That is the conclusion to be arrived at with respect to the discovery made by Leo Park, late Deputy Tax Collector under Rosborough as to where the mistake was made in the showing of Expert Snow that a new shortage of $487 had been discovered in the accounts of Mr. Rosborough when he was in the office of Tax Collector.

Mr. Snow says it was not he who made the mistake but the machine. The machine is a strange-looking contrivance, resembling at first sight, a small "barrel organ." This machine is in the joint ownership of Messrs. Dalton and Barber and was borrowed by Snow when he was experting the Rosborough stubs. Snow read off the amounts on the stubs and the several amounts were "touched off" on the machine by an assistant. When the lever was pressed for the purpose of revealing how many thousands of dollars had been tapped on its keyes, the machine put down the total of $5,863.15. That sum was just $538 62 more than the stubs showed Roeborough had collected that day(November 20th, 1894.) and there was made the assertion that he was just that sum short. Then the figures were compared with the original entries. It was shown that some irregularities had crept in among them, and when those irregularities had been straightened out, it was shown that $51.12 would have to be deducted from the total, leaving $5,812, making the amount collected $5,812.03. Then Park and Rosborough made their discovery showing that Snow's figures charged Rosborough with $487.50 than should not have been charged against him.

How the machine could have made so great a mistake Snow says he does not know because he is satisfied that he called off the amounts correctly and furthermore that he knows the man who manipulated the machine is noted for his accuracy.

Mr. Snow was asked to explain whether or not a similar mistake could not have been made in the determination that Rosborough was also $90 short in his payments to the County Treasurer. He replied that such could not be the case. He had verified Mr. Barber's figures as to the amount of taxes unpaid and Rosborough's showing lacked $90 of reaching the amount. This amount Mr. Rosborough says he will pay.

SIXTEEN TO ONE.

A Trite Explanation of What the Proportionate Statement Means.

Sixteen to one means in practice, that 16 ounces of silver shall be held as worth as much as 1 ounce of gold. One ounce of gold "American coin standard of fineness, that is 900 parts of pure gold and 100 alloy will coin in gold dollars $18.60. 16 ounces of silver, American coin standard of fineness, that is 900 parts of pure silver to 100 of alloy, at the rate of 412½ grains to the dollar (the weight of the present standard silver dollar) will coin $18.60 in silver dollars. These 16 ounces of silver can be bought in the markets of the world today for 9.94 dollars

There would therefore be a profit of $8 66 on an investment of $9 94, being about 87 per cent, if the holder of silver could take it to the mint and coin it without charge into silver dollars. The advocates of free silver favor a law that will allow any holder of silver bullion, or in fact, silver of any kind (as the latter can be melted into bars) to have the right to take the same to any mint of the United States and convert it into silver coin free of charge.

The House Fly Could Be Exterminated.

The house fly is a nuisance to mankind, and there is no reason why the nuisance should be allowed to continue unabated.

There is no more efficient disseminator of deadly microbes than the house fly, inasmuch as it has a fondness for all filth. An easy method is offered by which house flies could be practically exterminated in this country within three or four seasons

If every stable owner were obliged by an ordinance, strictly enforced, to keep on his premises a saucer containing some water and a little of a certain kind of poison, the flies would soon be practically exterminated. It should be understood that all house flies are stable born. They breed nowhere else.

Poison fly paper in a plate or other receptacle, with water, is a familiar object. The poison is a preparation of arsenic, known to apothecaries under the trade name of "cobalt." It may be purchased in the crude from any druggist, and one cent's worth of it will last for years. The stable owner need only keep a small quantity of it in a saucer during the summer months, and the flies newly hatched on his premises will go straight to it if a little water be added each morning Their extermination will follow.

It seems not unlikely that in the course of time the mosquito pest of New Jersey will be to a great extent modified by the adoption of a measure that has been found most effective and at the same time cheap Mosquitoes are able to reproduce their kind only in stagnant water, where they lay their eggs. A few cents' worth of crude petroleum will cover many acres of such water with a thin film. The oil thus spread kills the larval insect immediately.—From the New York Journal.

The Peoples' Express.

The popular People's Express Company has moved its office quarters into the brick building at the northeast corner of Ninth street and Broadway. The new location will be a convenient and accessible one for the public. The People's Express Company have always enjoyed a large patronage, principally because their business methods have proved to be satisfactory and honorable.

PROCLAMATION.

STATE OF CALIFORNIA,
EXECUTIVE DEPARTMENT,
SACRAMENTO, July 20, 1896.

WHEREAS, The Legislature of the State of California, at its thirty-first session, beginning on the seventh day of January, A. D. 1895, two-thirds of all the members elected to each of the two houses of said Legislature voting in favor thereof, proposed the following prescribed amendments to the Constitution of the State of California, to-wit:

Amendment Number One.

(Assembly Constitutional Amendment No. 2.)

ARTICLE XIII.

Section 1. All property in the State not exempt under the laws of the United States, or this Constitution, shall be taxed in proportion to its value, to be ascertained as provided by law. The word "property" as used in this article and section is hereby declared to include moneys, credits, bonds, stocks, dues, franchises and all other matters and things, real, personal and mixed, capable of private ownership; provided, that property used for free public libraries and free public museums, growing crops, mortgages, trust deeds, property used exclusively for public schools, and such as may belong to the United States, this State, or to any county or municipal corporation within this State, shall be exempt from taxation. The Legislature may provide for a reduction from credits of debts due bona fide residents of this State.

Section 2. Section four of article thirteen of this Constitution is hereby repealed.

Section 3. Section five of article thirteen of this Constitution is hereby repealed.

Amendment Number Two.

(Senate Constitutional Amendment No. 4.)

ARTICLE II.

Section 5. All elections by the people shall be by ballot or by such other method as may be prescribed by law; provided, that secrecy in voting be observed.

Amendment Number Three.

(Assembly Constitutional Amendment No. 19.)

ARTICLE XII.

Section 3. The liability of stockholders of corporations or joint stock associations shall be limited by the face value of the shares of the subscribed capital stock or shares of such corporation or association; and whenever any shares have been fully paid up the holder of such shares shall not be further liable to such corporation or association, or the creditors thereof, on that account. Each stockholder of a corporation or joint stock association, whose capital stock is not fully paid up, shall be individually and personally liable for such proportion of all its debts and liabilities contracted or incurred during the time he was a stockholder or shareholder, as the amount unpaid upon the stock or shares owned by him bears to the whole amount unpaid upon the subscribed capital stock or shares of the corporation or association. The Directors or Trustees of corporations and joint stock associations shall be jointly and severally liable to the creditors and stockholders for all moneys embezzled or mis appropriated by the officers of such corporation or joint stock association during the term of office of such Director or Trustee.

Amendment Number Four.

(Senate Constitutional Amendment No. 23.)

ARTICLE XI.

Section 6. Corporations for municipal purposes shall not be created by special laws; but the Legislature, by general laws, shall provide for the incorporation, organization and classification, in proportion to population, of cities and towns, which laws may be altered, amended or repealed. Cities and towns heretofore organized or incorporated may become organized under such general laws whenever a majority of the electors voting at a general election shall so determine, and shall organize in conformity therewith; and cities and towns heretofore or hereafter organized, and all charters thereof framed or adopted by authority of this Constitution, except in municipal affairs, shall be subject to and controlled by general laws.

Amendment Number Five.

(Senate Constitutional Amendment No. 25.)

ARTICLE XI.

Section 8½. It shall be competent, in all charters framed under the authority given by section eight of article eleven of this Constitution, to provide, in addition to those provisions allowable by this Constitution and by the laws of the State, as follows:

1. For the constitution, regulation, government and jurisdiction of Police Courts, and for the manner in which, the times at which, and the terms for which the Judges of such courts shall be elected or appointed, and for the compensation of said Judges and of their clerks and attaches.

2. For the manner in which, the times at which and the terms for which the members of Boards of Education shall be elected or appointed, and the number which shall constitute any one of such Boards.

3. For the manner in which, the times at which, and the terms for which the members of the Boards of Police Commissioners shall be elected or appointed, and for the constitution, regulation, compensation and government of such Boards and of the municipal police force.

4. For the manner in which, the times at which, and the terms for which the members of all Boards of Election shall be elected or appointed, and for the constitution, regulation, compensation, and government of such Boards, and of their clerks and attaches; and for all expenses incident to the holding of any election.

Where a city and county government has been merged and consolidated into one municipal government, it shall also be competent in any charter framed under said section eight of said article eleven, to provide for the manner in which, the times at which, and the terms for which the several county officers shall be elected or appointed, for their compensation, and for the number of deputies that each shall have, and for the compensation payable to each of such deputies.

Amendment Number Six

(Assembly Constitutional Amendment No. 13.)

ARTICLE II.

Section 1. Every native citizen of the United States, every person who shall have acquired the rights of citizenship under or by virtue of the treaty of Queretaro, and every naturalized citizen thereof, who shall have become such ninety days prior to any election, of the age of twenty-one years, who shall have been a resident of the State one year next preceding the election, and of the county in which he or she claims to vote ninety days, and in the election precinct thirty days, shall be entitled to vote at all elections which are now or may hereafter be authorized by law; provided, no native of China, no idiot, insane person, or person convicted of any infamous crime, and no person hereafter convicted of the embezzlement or misappropriation of public money, and no person who shall not be able to read the Constitution in the English language, and write his or her name, shall ever exercise the privilege of an elector in this State; provided, that the provisions of this amendment relative to an educational qualification shall not apply to any person prevented by a physical disability from complying with its requisitions, nor to any person who now has the right to vote, nor to any person who shall be sixty years of age and upward at the time this amendment shall take effect.

NOW, THEREFORE, Pursuant to the provisions of the Constitution, and an Act of the Legislature entitled "An Act to provide for the submission of certain proposed amendments to the Constitution of the State of California to the qualified electors for their approval," approved March 7, A. PROTESTS HANDLED.

The City Equalizers Consider Street Railroad Cases.

FRANCHISE VALUES FIGURED.

The Seventh Street Local Is a Stumbling Block.

AUDITOR SNOW'S OPINION.

Applications for Reductions by Many Property Owners.

President Mott and Councilmen Manuel and Watkinson were absent last evening at the meeting of the City Board of Equalization and as a consequence all but one of the applications for reductions in assessments were laid over. Brosnahan said, if any member had a pet corporation that he did not want to see turned down let him come up and take his medicine like a man. The rest of the members present voted aye on the motion to adjourn.

It was half past 8 before the meeting was called to order, with Brosnahan in the chair. Bassett was the first to get the floor and offered a resolution instructing the Assessor to assess the Alsop franchise, as Heitmann said he had a resolution which included this. Bassett withdrew his.

The first matter taken up was the application of the Alameda, Oakland and Piedmont Railway Company. A letter was read from President Rank of the company. It stated that the Assessor had valued the ties, road bed, etc., at the same amount he had last year, that is $15,450. Rank called attention to the fact that the property had through wear and tear depreciated in value.

As none of the railroad people were present the application was laid over to be taken up later in the evening if they came; on next Monday night if they did not.

Heitmann then called up his resolution which directed Welles Whitmore and E. K. Alsop to appear before the Board of Equalization on August 18th and show cause why their franchise for a street railway on Franklin and other streets should not be assessed.

Assessor Snow, who was present, said he would assess it anyhow.

"Well, it is funny that this has never been assessed," said Heitmann. "Here these men hold one of the most valuable franchises in this city. They have two rails laid on Franklin street to retain their rights and yet never before has it been assessed a cent."

The roll was called on the resolution. Dow alone voted no, saying that he believed it unnecessary, as City Assessor Snow had said he should assess the franchise anyhow.

THE BERKELEY ROAD.

The Oakland Consolidated Railway Company's application was read. It asks for a reduction from $23,2.5 to $5,087 on the line running from Second and Broadway to the northern boundary line of the city and on the franchise therefor from $25,-000 to $1,665; on the Sixteenth street branch from $6,660 to $5,335 and the franchise from $5,000 to $1,000; on the Eighth street branch from $16,650 to $7,524, and on the franchise from $10,000 to $3,000.

Superintendent Grim was sworn and said that the road bed was not worth the assessor's valuation as it depreciated in value yearly.

Bassett stated that the company's rails on Sixteenth street were above the grade and on Eighth street below it, so that if the company did nothing the city would need all the money it could get to pay for fixing the streets. The company, he said, was not anxious to comply with the requests of the Street Superintendent and he did not feel that they should ask favors from the city.

It was moved to lay the matter over until all the members were present and the motion was carried.

F. A. Elliott's application for a reduction from $2,000 to $1,500 on lots in East Oakland was granted. This was the only application disposed of during the evening.

The application of Henry Rodgers for a reduction of from $27,500 to $20,000 on the Merritt block at Twelfth and Franklin streets was taken up.

Rodgers stated that the Kahn building at Twelfth and Washington streets was assessed at $23,000 and the Canning block at $22,500. Both buildings, he said, were as good as his, and he thought therefor, the reduction should be made.

The matter was referred to a special committee consisting of Kaufman, as an architect, and Marshall as a real estate man, to investigate and report tomorrow evening.

No one appeared to argue the Mary Bonhom Nicholson application for a reduction from $1,650 to $1,000 on her real estate, so it was laid over.

The Wm. McDonald application was referred to the special committee.

THE EAST OAKLAND ROAD.

There was one new application, filed by the East Oakland Street Railroad. E. P. Vandercook, in his affidavit, stated that the road from Eighth and Broadway to Eighth avenue and East Eighteenth street was assessed for $13,200 and was not worth over $7,775, from East Eighteenth street Eighth avenue to Twenty-third avenue for $5,200 and its value was $3,000; the Eighth avenue branch for $3,175, and its value was $1,660; the Trestle Glen branch for $5,725, and its value was $3,425; the Harrison street branch for $2,340, and its value was $2,000. The franchise is assessed for $5,000 and Vandercook declared it was not worth over $100; the cars for $9,000 and should be reduced to $6,000; the machinery at $9,000 and should be reduced to $7,500.

No one was present to argue the application and it went over to Monday.

Up to this juncture the evening was devoid of argument, the only one occurring being over the Alsop franchise, but Bassett made a motion instructing the Assessor to assess the Seventh street local line and the rest of the evening was spent in discussion.

This line was assessed last year and as the railroad claimed it was assessed by the Board of Equalization as a part of the general system, it refused to pay the city taxes and a suit for them is now pending. The county has two suits for its taxes on the same line. Dalton assessed it this year, but Snow did not, on account of the code section which provides that if an assessment is left off one year it can be put on the next year's rolls.

Bassett expressed himself as thinking this poor policy. There was nothing to be lost, he said, by assessing it and if it were not assessed it would be like a weakening on the city's part.

"I think," said Snow, "that if you bring the officers of the company here you will decide to drop the assessment this year. The charter states that the City Assessor shall accept the figures of the County Assessor and the State Board of Equalization and that no property shall be assessed twice. It is claimed that this was done last year. The city taxes were not paid and instead of selling the road we began a suit to enforce payment. The City Attorney is now conducting it and I think he believes with little hope of success. I know for a certainty that this year the Board of Equalization has assessed this property. If you call the railroad people here they will say the property has been assessed once and that it is not within your power to assess it again. The State Board is a higher power with its duties defined by the constitution of the State. Such a matter as this I think you should send to your City Attorney. I believe he will advise you not to encumber the rolls by assessing the property. I have investigated to find out if the Seventh street line is not a part of the general system and I find that I can buy a ticket at Broadway to go to any point in the State. I have also learned that the overland sometimes comes in on the Seventh street tracks. There is no man in the city who wants to see the railroad company made to pay all it will stand more than I. The expressman, with his team on the corner cannot be made to pay more than one tax and neither can the railroad. The city has one suit, why multiply? I would not feel this matter so much were I not Auditor, but if we assess it we have to figure it in the estimate and the money matters are complicated."

"Don't you know," asked Bassett, "that this practice of letting you ride on the local has only come in of late and that merely to evade being assessed by the city? It is no more a part of the general system than Grim's road is. There is nothing to be lost if we do assess it anyhow."

Heitmann stated that he thought there were probably several matters which should be put on the rolls and therefor moved that the Board adjourn to meet Thursday night, at which time the rolls could be examined.

Brosnahan called Bassett to the chair and spoke in favor of adjourning and the Board did so.

Stories of George Law.

Anecdotes of Mr. Law might be multiplied indefinitely, but the following show him in his greener days to have been even in embryo the unconventional George Law of the latter times. His father, it appears, was a strict disciplinarian, and made his son drive a car twice a day from Fifty-ninth street to the Astor House, so he might know the business from the dashboard up, as it were. Young Law was driving up the Eighth avenue late one cold drizzling night, when a young friend jumped on the front platform and invited the future railroad president to have a drink. He proposed that the car should meanwhile be left in charge of the conductor.

Law, after he had carefully digested the proposition, said he thought he knew a better plan, and, whipping up his horses, he switched his car into Forty-fifth street and drove over the cobble stones to a resort in the middle of the block, kept by a former boxing instructor in Columbia College. The car drew up at the door of the saloon with all its windows broken and all its passengers bruised and angry. Law mollified them, however, by treating all hands. The horses were then changed to the other end of the car and the car restored to its proper position in Eighth avenue.—New York Times.

"A DAY IN BOHEMIA."

An Enjoyable Entertainment to Be Given in Alameda.

The Boys Brigade Will Depict Camp Life in the Redwoods.

An entertainment that for originality and completeness of arrangements has never been surpassed in this section is to be given tomorrow evening at Armory Hall, Alameda. It is entitled "A Day in Bohemia," and will consist of an exact reproduction of the encampment there of the Second Regiment of the Boys' Brigade from the 8th to the 14th of July.

The stage will be arranged exactly like the place where the boys made their headquarters in the redwoods. Tents will be pitched, a flag pole in position and all details attended to with great precision and exactness. The entertainment will consist of a number of living pictures in which the boys will show their life in the forest. An idea of the arrangements can be best obtained by the programme which is as follows:

Music.
1. Reveille.
2. Inspection.
Recitation by Mrs. George Sturdevant.
3. Mess call.
4. Sick call.
Soprano solo by Mrs. Allardyce.
5. Church call.
6. Guard mount.
7. Open camp.
Flute solo by Major Henry Fina.
8. Mess call.
9. Court martial.
10. Mess call.
Music.
11. Dress parade
12. Retreat.
13. Service.
14. Campfire.
15. Snipe hunt.
Vocal duett by Mr. and Mrs. Allardyce.
16. Tattoo.
17. Guard relief.
18. Taps.
19. "All's well."

The musical numbers will be interspersed with the tableaux the whole making a thoroughly enjoyable programme.

That there will be a big attendance is certain for the Boys' Brigade is one of the most popular church organizations. There is one company attached to each church—for the brigade in undenominational and a ladies auxiliary is also in evidence. It is to the auxiliary that the entertainment tomorrow is due, the affair having been arranged by the following ladies: Mrs. Harrigen, Mrs. Walton, Mrs. Jenkins, Miss Cobbledick and Miss Harp. Major Taylor is on the press committee and has had valuable assistance from Lieutenants Bird and Hobson. To Miss Jones of the Committee on Publication and Mrs. James B. Barber much credit is due for the zeal with which they have labored to make the event the success it undoubtedly will be. Admission will be 25 cents. Children 10 cents.

A SHOT AT SOMEONE.

Eva C. Cameron Sends Work to "East Oakland Gossips."

Auburn, August 4, 1896.

Editor Tribune: Sir: Will you please insert a few lines in the Tribune where it will be seen by some of East Oakland's gossips. That I, Eva C. Cameron wish it be known that I am not married and have no such intention.

Respectfully,
MRS. EVA C. CAMERON.
Auburn, Placer County, California.

OUR CHIEF CONCERN.

(For the Tribune.)

When the raindrops on our windows patter,
And the winds sweep by with a dismal clatter,
And the night is dark, and stormy the weather,—
Nor night nor storm shall last forever.
And when the storm and din shall cease,
How welcome then shall be our peace—
Joy, joy, and rest in sweet surcease!

We seem afloat on a billowy sea,
'Mid angry winds and waves aglee—
We're all at best in ceaseless striving,
And life, at most, were but surviving,
But it matters little, what is before us—
What reckless winds and waves sweep o'er us,
If God's own hand shall safe restore us.

Aye, life, indeed, hath stormy weather;
But the chief concern with us is whether
We meet its duties with brave endeavor.
If so, e'en fates we may command,
And angels, kind, lend helping hand!
Then we may calm and safe await,
While God's own hand unfold our fate—
Till Seraphs wait at the "Golden Gate,"
Beyond our ocean's stormy din,
And welcome us Heaven's ports within.

—J. C. Pelton.

Bryan Is Too Ambitious.

Mr. Bryan's oratory possessed the preliminary iridescence and soaring power of a soap-bubble, but time has pricked it, showing a watery basis and a capability of collapse equalling that of a Chinese lantern or an opera hat. He will not be studied in after time with those roaring old classic blades who shook the arsenal and fulmined over Greece, nor with Cicero and Hortensius, to say nothing of Chatham and Daniel Webster and Colonel Ingersoll. He is a nimble-tongued young aspirant, whose sleep has been disturbed by the trophies of Miltiades, and to whom the sedative of defeat will be as hops or poppies. He is about as fit to be President as to be pontifex maximus or the high priest of Apollo, and his chances for one or the other are happily about equal.—From the Tribune (Rep.) New York.

FRATERNAL NEWS

Post Consolidation Is Again Discussed in Veteran Circles.

PROSPECTS OF A DEAL.

Red Men Give Evidence of Forging to the Front.

A CONFERENCE OF COUNCILS.

Lodgeroom Gossip Gleaned in a Variety of Circles.

The summer vacation has not ended yet, and as a consequence there are many leading members of fraternal orders who are still sojourning at resorts along the seaside or tenting in the woods or mountains. For that reason there has not been much activity, the past week, in the anteroom of the fraternal lodges. Some of the events, however, which have transpired will be found recorded below.

Grand Army of the Republic.

The announcement made in this department of the attempt that is being made to consolidate Lyon and Appomattox Posts, G. A. R., has attracted a great deal of attention, for the reason that many members of both organizations hope that the project may now be carried through in a successful manner.

This is not the first time that this subject has been introduced among the members of both organizations. In the past, it has been a subject which has not been discussed in the most friendly manner, for the reason that a consolidation, it was thought, could not take place without causing both posts to make sacrifices to which neither would consent. Lyon Post wanted to retain its old name and number, and Appomattox Post did not wish to lose its name. When the last mentioned post came into existence, it was the only post of the name in the Grand Army. It was also the first post to assume that name, and, as the name will forever live in the history of this country, the post naturally disliked to abandon it even for the sake of consolidation.

When the idea of consolidating was first anounced, it was thought that the only way by which such an arrangement could be effected was by the surrender of the name and number of Appomattox Post. It was even held that it would be impossible for Appomattox to have its name retained as a part of the title of the proposed new post.

It now appears that with respect to the name of the post, at least, there is no necessity to sacrifice that of Appomattox, because, under recent decisions of the National Encampment and actions in this State, it has been shown that it is allowable for two posts to consolidate under a dual name, and thus lose only one of the roster numbers in the department.

Under such an understanding, it is possible for Lyon and Appomattox Posts to come together under the name of Lyon-Appomattox Post, and at the same time retain the number of Lyon Post.

Such a consolidation has been effected in Santa Cruz, when Wallace and Reynolds Posts came together under one number and are now, under the compound name, working together in a most harmonious manner.

The precedent of the Santa Cruz Posts may be looked to by the local organizations and followed by them, because it removes one of the greatest obstacles which has thus far kept these organizations from re-doubling their usefulness in a solid and compact post of several hundred members.

Red Men.

The thirty-first Great Sun Session of the Great Council of the Imperial Order of Red Men is now in session in San Francisco. It is considered the most successful gathering of the kind that has been held in this State. In a certain way the glory is reflected in Oakland, because this city has always been strongly identified with the principles of the Red Men.

In the Great Council, the county of Alameda is represented as follows:

Grey Eagle, No. 55, of Oakland—O. M. Burnham, W. W. Moore, W. H. H. Hussey, A. McLeod.

Pawnee, No. 67, of Alameda—T. Campbell, E. E. Dunn, G. M. Noble, W. J. Robinson.

Comanche, No. 79, of Elmhurst — W. J. Keating, W. H. Whipple, E. J. Leonard.

Pottawatomie, No. 84, of Haywards—A. C. Malone, G. L. Langan, J. G. Hanks.

The Great Council degree was conferred on thirty-nine representatives.

In his address of welcome to the delegates, F. D. Brandon, who is a Past Grand Sachem, gave the following interesting epitome of the history of the order: "The Red Men," he said, "traced their origin to the Sons of Liberty, who were in existence in America in 1765. After the Sons of Liberty had come the Sons of St. Tamnia, which society was formed in 1771 and was merged into the Tammany in 1789. From 1789 to 1833, the society was fraternal, but not beneficial. In 1833, starting with a membership of something less than 40,000, the society went to work making converts of the palefaces, until now there are more than 150,000 Red Men in the United States."

Colonel Andrews of San Francisco is now the only surviving California member of the Great Council of the United States. He once held the office of Great Mishinwa.

Four tribes were instituted during the past year, as was shown by the report of Great Sachem A. Jackson.

Mr. Jackson also referred to the fact that many of the laws of the order are ambiguous and ought to be amended. He recommended that every tribe on the reservation set apart for the sick and funeral fund a proportion of its income, which should be used for no other purpose. A member who contributes to the fund for twenty-five or thirty years in his younger days should be guaranteed, so far as possible, that he will receive his sick benefits if he has the misfortune to require them when in the sere and yellow leaf.

It was also shown as a result of the council that the degree of Pocahontas is in a flourishing condition, having twelve councils in this State, all of which are in a good financial condition and are increasing in membership.

Grey Eagle Tribe gave a smoker Wednesday night, and was visited by P. G. S. Betts and D. D. G. S. Campbell and others. A pleasant and instructive evening was experienced.

Young Men's Institute.

The Board of Grand Directors of the Young Men's Institute will meet in Y. M. I. Hall on the 8th inst.

United Workmen.

The meeting of Oak Leaf lodge No. 35 A. O. U. W., was fairly well attended last Monday evening. One new candidate was elected.

The committee appointed to visit the sick reported that Brother Charles Hurd, one of the victims of the late railroad accident at Niles Canyon, was improving beyond the most sanguine expectations and that his injuries, while serious, will leave no permanent disability.

Brother Cogan announced that the grand open meeting of the combined A. O. U. W. lodges of West Oakland will be held in the Methodist Church in that section of the city Tuesday evening, August 11th, not Friday evening, August 14th, as erroneously announced in "The Watchman."

Brother Cogan stated that Past Grand Master Workman Duprey and Grand Master Workman Vinther will both be present to deliver addresses and that a delightful programme had been arranged for the occasion.

Grand Recorder D. S. Hirshberg announced that the adjourned grand lodge convention will again convene Tuesday September 1st, in Shiels' building, San Francisco.

Past Masters McAllister and Jacobson, who have both been quite sick, were present and made eloquent remarks. Brother Tucker and Colquhoun also made remarks during the evening.

Degree of Honor.

The hall in which Ivy lodge No. 4, Degree of Honor, A. O. U. W., meets was a veritable bower of roses last Wednesday evening, the transformation having taken place under the deft hands of the sisters comprising the Committee on Entertainment.

During the evening one new member was elected.

Sister Wood, Past Chief of Honor of Ivy lodge, now a resident of Placerville, entered the hall while the meeting was in progress, escorted by Brother Greenbaum. The hearty reception which she received will no doubt live long in her memory. For several minutes round after round of applause greeted her. Sister Wood acknowledged the reception in a speech that was heartfelt and eloquent.

Grand Chief of Ceremonies Mrs. Norman of Montana made a few pleasant remarks flattering to Ivy lodge.

Lady of Honor Mrs. Hodges made a pretty little speech which was loudly applauded.

The following excellent programme was then presented by Sister Josie Butler, chairman of the evening: Piano solo, Mrs. Holmes; recitation, "A Revolutionary Story," Past Chief of Honor Mrs. Oakes; recitation, "A Little Red Jacket," Miss Hettie Young of Silver Star lodge; song, "Tom Bowling," Brother Oakes, who responded to an encore; speech by Past Chief of Honor Mrs. Mitchell.

After the literary and musical portion of the exercises was concluded a banquet was enjoyed by all.

Besides the strawberries and cream and other dainties prepared by the committee ten gallons of ice cream, the gift of Past Chief of Honor Mrs. Wood, were served.

Native Sons.

Grand Trustee Rod M. Church of this city is making his official visits to parlors in the northern portion of the State. He visited Humboldt No. 14; Golden Star No. 88, and Ferndale No. 93 and found them in good condition and progressing.

The parlors known as General Winn, No. 32, Mount Diablo No. 101, Central No. 110, and Byron No. 170, comprising Contra Costa County district, will consolidate for the celebration at Stockton on Admission Day.

Odd Fellows.

The Veteran Odd Fellows' Association is now making arrangements to visit all the Odd Fellow lodges in this city and the visitation will soon take place.

Knights of Pythias.

Oakland lodge No. 103, K. of P., at its last convention received the report of the committee on investigation on the five applications previously received. The strangers were balloted for and elected, after which the Page rank in a very impressive manner was conferred on Stranger Kirkwood. The Castle Hall was thronged with members of the order and conspicuous among them were the visitors. Nearly every lodge in the city and county was represented. Alameda lodge No. 49 sent over a large delegation, all of whom commended the lodge for its excellent work.

Under the head of "Good of the Order" remarks were made by the C. C. of Alameda lodge, Whalley of lodge No. 172, Dixon of Nebraska, Holland and Arnolt of No. 17, Lockner of lodge No. 152, and Schwartzbaum of No. 172, Curtis of No. 181 entertained the lodge with a vocal solo entitled "The Faded Coat of Blue."

H. B. Rusk of lodge 172 enlarged upon the subject of Matrimony from his six days' experience of conjugal bliss.

Tomorrow night Strangers Ellison Moon and Peck will be initiated into the mysteries of the Page rank, and Esquire Kollick will be elevated to the Knight rank in the amplified form.

Grand Chancellor C. F. McGlashen officially visited Piedmont lodge last Monday night. The distinguished visitor received a cordial welcome from the assembled brethren.

Calanthe Temple No. 6 last Tuesday night held it regular dime social and entertainment, which resulted in a great success both socially and financially. The following programme was rendered:

Duet, by Misses Anderson and Hansen; recitation, by Mrs. Schultz; vocal solo, Miss Benson; specialties by the Misses Newhardt, recitation, by Mrs. Baldwin; instrumental solo, Miss Bacon; comic specialties, by Mrs. Jones and Newhardt.

Chosen Friends.

At the next regular meeting Unity Council No. 179, O. C. F., will have its new officers installed. The members of the order are required to be present on that occasion. The district deputy, Friend E. Freeman, will perform the duty as installing officer. Members of the Grand Council are expected to be present.

This council is getting along very nicely since it adopted the new plan. It has three applications to be presented at the next meeting.

Catholic Ladies' Aid Society.

Congressman James Maguire and Col. John P. Irish will give a debate on the silver and gold question under the auspices of the C. L. A. S. August 20th in the Macdonough theater.

Register on or before August 10th, or you will lose your vote.

Rev. Owen Jones Selected.

The Rev. Owen Jones, M. A. was elected Assistant Pastor of the First Presbyterian Church at a meeting of the church officers last evening. He will fill the vacancy caused by the resignation of Rev. Campbell Coyle who has gone East to accept the pastorship of the Toledo, Ohio, church. Mr. Jones is a native of Wales and a graduate of London University and for some time has been filling the pulpit of the Welsh Presbyterian Church.

Spanish Warships Bombarding Insurgent Coast Camps.

By Associated Press to The Tribune.

HAVANA, August 6.—The insurgent band, led by Hernandez, consisting of 250 men and four of the women fighters, called Amazons, have killed with the machetes four cart drivers and have murdered the proprietor of a tobacco plantation in the province of Pinar del Rio and also his wife, three sons and a daughter. Three other children were seriously wounded at the same time and a young lady, 17 years old, had her arm severed from her body. The band burned the house. Eighteen insurgents have given themselves up to the authorities at various points.

MORE MEETINGS.

NEW YORK, August 6.—A dispatch to Herald from Havana says: A correspondent in Baracca communicates news of recent important military operations in the district. Colonel Alarez, with the forces of the Talavera battalion, a detachment of local volunteers and a body of the civil guard after a severe engagement, lasting five hours, and a brilliant charge, captured a big rebel stronghold at Cuchilas de Caguina, defended by 800 insurgents. Many houses were destroyed and a great quantity of munitions captured. The rebel loss is reported as heavy. Several officers were among those wounded on the Spanish side.

A train on the Havana and Batabano railway was attacked by insurgents near San Felipe. Several volleys were fired into the cars but the troops were not hurt. The Spanish escort on the trains returned the rebel fire, but the result is not known. The train proceeded.

Official Santiago de Cuba reports say that the warship Galicia bombarded and destroyed insurgent camps on the coast near Partillo.

Consul-General Lee yesterday renewed his efforts to have the Competitor's crew transferred to better quarters, and in a note to the Captain-General also insisted that the prisoners should be better fed. Several of the men are ill and unless the Spanish prison authorities improve their diet the Consul General purposes to ask that the prisoners' friends in the United States be allowed to contribute to a fund to provide them with necessities.

A new battalion of volunteers has been organized in Matanzas. Jose M. Gonzales, a prominent lawyer of Quivican was arrested yesterday and is held prisoner here as a political suspect.

Surgeon-General Losada is urging Captain-General Weyler to designate the Isle of Pines as a sanitarium for army convalescents. The island contains mineral springs of notable excellence and is generally regarded as the healthiest spot in the West Indies.

FLOODS IN NICARAGUA.

Rivers Run Like Torrents and Much Property Is Destroyed.

By Associated Press to The Tribune.

NEW YORK, Aug. 6.—A dispatch from El Rama, Nicaragua, says:

Heavy rains caused the rivers Rama and Siqua in this neighborhood to rise rapidly on July 19th last. The panic-stricken inhabitants took refuge on the high grounds and on board the steamers in the river Rama.

Two of the steamers, the Milton and Horrock, were carried by the force of the current far down stream, their crews being powerless to stop them. The Governor of Bluefields at once organized a relief corps and put provisions on board a steamer for those who had been carried down the river.

The police and a committee of citizens distributed relief. Only a few buildings were left standing by the flood in El Rama. The plantations near the town were all destroyed and the loss is estimated at more than $1,000,000. Many of the refugees have found shelter in Bluefields. Two lives were lost.

BLOWN UP.

An Engine Explodes With Fatal Effects in a Harvest Field.

By Associated Press to The Tribune.

ANDERSON, Ind., Aug. 6.—Just as a threshing crew was finishing threshing on the farm of William Wynant in the southwest part of this county last night, the traction engine was completely wrecked by the boiler exploding.

David Wynant was killed outright and others whose names cannot be learned, were injured.

The meagre reports indicate that two of the cases will be fatal. Nothing was left of the engine.

It seems that the engine had been considered unsafe for several days.

NEGROES CUT OFF.

An Important Decision Is Given About the Creek Nation.

By Associated Press to The Tribune.

PERRY, Oklahoma, Aug. 6.—The final decree has been promulgated from Okmulgee, the capital of the Creek Nation, as it had been handed down by Judge Adams, chief justice of the Supreme Court of the Nation, in the citizenship case.

It strikes from the rolls of citizenship of the Nation the names of over 1,700 negroes.

The decision held that the action of the Indian Council, after the passage of the Emancipation Act by the United States, in admitting negroes to tribal relations was unconstitutional and therefor at this time invalid.

Since the passage of the act these negroes have drawn in annuities $1,000,000 from the Creek Government; have held positions of official trust and have improved their farms and educated their children at the nation's expense for twenty years.

From the decision of the court there is no appeal. The Interior Department has held to the same opinion in a similar case.

The Dawes Commission, which has been appealed to by the deposed negroes, claims it has no right to interfere with the decision of the Indian Court.

ORDERED TO GO.

White Residents of Arkansas Descend on the Negroes.

By Associated Press to The Tribune.

TEXARKANA, Ark., Aug. 6.—A war between whites and negroes is imminent in Polk County, Ark., on the line of construction of the Texarkana and Port Smith railroad. It seems that the hardy old mountaineers of that section have not allowed any negroes to stop in that section for years.

The contractors building the railroad now under construction are employing colored labor, and as a result the natives have served notices on them that Sambo must move on, as it is against their religion to permit them to desecrate their soil with picks and shovels or otherwise. As a last resort Contractor D. J. McDonald came here and employed a force of twenty guards to protect the negro laborers, and these, armed with Winchesters, have left for the scene of the prospective trouble.

The railroad people express their firm purpose to protect their rights and as the other side is known to be equally determined serious trouble is almost certain to follow.

Do not delay, but register at once. County Clerk's office open from 7:30 to 9 P. M. every night.

A POLITICAL DODGE.

Insurance Companies and a State Auditor Are Clashing.

By Associated Press to the Tribune.

DENVER, Aug. 6.—It is announced that State Auditor Parks, who is ex-officio insurance commissioner, is about to spring a surprise upon some of the leading insurance companies.

Several companies, it is said, have recently been sending circulars to their policy holders containing the assertion that if the Democratic party is successful in the coming election their policies will be worth but half the amount on which the premiums have been paid.

It is said Mr. Parks has been quietly securing a collection of these circulars which he claims are evidences of insolvency on the part of the companies and he now proposes to cancel the licenses of all such companies which are now doing business in this State.

It is claimed that the Auditor's judgment in such cases is final and that if he insists upon this course the companies will be barred from doing business in the State.
